SAGE Scientific, Technical, and Medical Packages

SAGE is an independent, international publisher committed to meeting the current and future needs of academic, professional, and medical communities. We publish more than 500 peer-reviewed journals, including over 165 in Science, Technology, and Medicine, which are now available in three separate packages to meet your needs:

- The **Science, Technology, and Medicine (STM) Package** provides our most comprehensive journals offering across all the STM fields in which we publish. It contains 165 high-quality journals, 55% of which are ranked in the Thomson Reuters Journal Citation Reports®.
- The **Health Sciences Package** provides a more focused offering on health research, nursing, and clinical medicine. It contains 129 journals—a subset of our SAGE STM Package—62% of which are indexed in MEDLINE.
- The **Clinical Medicine Package** is a more refined package, with 70 journals (67% indexed in MEDLINE). The package, also a subset of the SAGE STM Package, focuses solely on our must-have clinical content across a wide spectrum of medical specialties.

For over four decades, we have published quality material created in partnership with the best authors, researchers, editors, associations, and societies. We remain dedicated to publishing journals that are at the forefront of their respective fields.

SAGE journals are accessible online via the *SAGE Journals Online* platform, powered by HighWire Press, which offers flexible searching and browsing capabilities, customizable alerting services, and advanced toll-free inter-journal linking. *SAGE Journals Online* is the winner of the PSP Award for Excellence for Best Platform. To find out more about the journals we publish, visit <http://online.sagepub.com>.

Science, Technology, and Medicine Package

The **Science, Technology, and Medicine (STM) Package** provides our most comprehensive journals offering across all the STM fields in which we publish. It contains 165 high-quality journals, 55% of which are ranked in the Thomson Reuters Journal Citation Reports®, and includes the **#1 ranked journal** in Rehabilitation*, *Neurorehabilitation and Neural Repair*. The package not only covers all of our core journals in the health and life sciences, but also includes computing, engineering, and materials science.

"SAGE publishes over 30 peer-viewed journals in material sciences and engineering. ... [I]n this field, The International Journal of Robotics Research (IJRR) from SAGE ranks the second in JCR. I have been subscribing ... since [the] 1990s. Up till now, IJRR is still my primary source for information, playing an irreplaceable role in our project research."

Health Sciences Package

The **Health Sciences Package** provides a more focused offering on health research, nursing, and clinical medicine. It contains 129 journals—a subset of our SAGE STM Package—62% of which are indexed in MEDLINE. This package is a good fit for the institution that may not require additional computing, engineering, and material science titles.
