SAGE Journals

The award-winning electronic journal platform

SAGE Journals (SJ) is home to more than 630 journals, including many in partnerships with professional associations and societies. *SJ* is one of the largest and most powerful collections of business, humanities, social sciences, and science, technology, and medicine content in the world and is, supported by HighWire Press' "2.0" technology (H20). The site's features and functionality include:

- **Search and browse across 50+ disciplines**
- **Abstract preview** – Mouse-over entries available from tables of contents and search results provide pop-up previews of abstracts.
- **Toll-free inter-journal linking** – from your subscribed content, access the full-text of other cited articles hosted on *SJ* and HighWire Press.
- **Popular articles list** – Most-viewed and most-cited articles lists are readily available from all pages within a journal site.
- **Targeted portal navigation options** for all types of users.
- **Tag-along navigation** – Content features follow alongside as users scroll down the article page.
- **Pop-up references** – For full-text journals, full citations pop up when you hover over reference numbers within the text of an article.
- **Keyword pivot searches** – For all journals, keywords are now hyperlinked and perform quick searches of that term within all content in that journal.
- **Forward to a friend** - allows you to forward an article recommendation along with the URL and its citation information.

- **Feature hideaway** – Author affiliations, related links, and other functions can be expanded or hidden from view; these preferences are retained throughout a session.

Librarian-friendly features include:

- Familiar HighWire subscription and administration tools for subscribed and non-subscribed content.
- COUNTER 3-compliant usage reports with the option to view in HTML or download as a tab-delimited file.

Awards

SJ was selected for *Choice Magazine's Outstanding Academic Title* (January 2011) and was a previous winner of the *Professional Scholarly Publishing Award for Excellence* for best electronic platform from the *Association of American Publishers* (2007).

SAGE Premier

Online access to SAGE journal content in social sciences, business, humanities, science, technology, and medicine.

SAGE Premier package is an invaluable investment for your library. It includes leading international peer-reviewed journals and high-impact research titles published on behalf of more than 245 scholarly and professional societies.

Benefits for your patrons:

- Electronic access to **more than 600 peer-reviewed, full-text journals** and more than 470,000 articles, with content dating back to 1999.
- **High-quality, interdisciplinary content** – all SAGE journals are peer-reviewed and over 65% of the content in the **SAGE Premier** package is ranked in the 2010 Thomson Reuters Journal Citation Reports® (JCR).
- SAGE is **market leader** (by number of ranked titles) in 8 key disciplines.
- Access via **SAGE Journals (SJ)**, SAGE's award-winning online journal delivery platform, powered by HighWire Press.

Need something more specific?

Titles included in SAGE Premier are also available in smaller, discipline-specific packages:

- **Humanities and Social Science (HSS) Package** – includes 453 titles
- **Science, Technology, and Medicine (STM) Packages** – includes 206 titles available in the following 3 packages:
 - Science, Technology, Medicine – 206 titles
 - Health Sciences – 164 titles
 - Clinical Medicine – 107 titles

Benefits for librarians:

- COUNTER 3 compliant usage statistics available
- Content ownership of the subscribed content published by SAGE during the term of the agreement
- A site license designed with and for librarians
- Unlimited access via IP recognition
- Remote user login
- Athens-authenticated access
- Access rights for walk-in users
- The right to download articles and make copies for course packs and electronic reserve collections—no extra fee or permission required
- Inter-library loan
- Take advantage of the toll-free inter-journal reference linking feature between SAGE journals and other HighWire hosted journals with flexible searching, browsing, and alerting capabilities

“SAGE Premier is by far the most popular information resource licensed by SCEL C members. In a consortium as diverse as ours, it’s impossible to find content that everyone agrees is essential for the research and teaching needs of their institution. SAGE Premier, however, fits that bill magnificently!”

—James Wiser,
Assistant Director, Statewide California
Electronic Library Consortium

SAGE Deep Backfile Package

Investing in the **SAGE Deep Backfile Package** means owning access to **more than 430** SAGE journal backfiles.

5 good reasons to own the SAGE Deep Backfile Package...

1. Breadth

SAGE has collected more than 430 journal backfiles, including over 503,000 articles of historical content covering interdisciplinary subjects in business, humanities, social science, science, technology and medicine.

2. Depth

SAGE's deep backfile coverage goes to volume 1, issue 1; through the last issue of 1998 (content from January 1999 to the present is included in the current subscription)*. Methods Lists

Methods Lists are a useful tool for every level of researcher, from beginner to expert. Lists allow researchers to gather content from their searches to access later or share with students, research partners, or any other users.

- For once, copying someone else's work is encouraged! Researchers can search for **lists other users have created** in their area of interest.
- Make researching easy! Lists can be saved for review at a later time. By clicking on the padlock symbol, lists can be made private or shared with other users.
- Searching is effortless! Browse **Methods Lists by topic**.
- View the **most popular lists** created by other users.
- See **lists by SAGE authors and editors**.

Methods Map

The **Methods Map** is a visual search tool supported by a unique, complex, custom-designed taxonomy of 1,400 research methods terms, methodologies, and people in the field. The map is a dynamic tool that follows users on their search. They can click through at any time to find related topics, delve more in depth into a term, or backtrack to a broader view.

- **View the various types of content** available for each methods term—dictionaries, books, encyclopedias, journal articles and/or videos.
- **Find related terms** or **key authors** for the method selected and click through to related works.
- **Explore sub-topics** that fall under search terms, add or remove terms from search criteria.

“I have never really seen anything like this product before and I think it is really valuable.”

– John Creswell
University of Nebraska-Lincoln
