**SAGE REFERENCE'S UNPRECEDENTED, COMPREHENSIVE, NEW
ENCYCLOPEDIA OF PSYCHOLOGY AND LAW
INTEGRATES PSYCHOLOGY, CRIMINAL JUSTICE AND PUBLIC POLICY SCHOLARSHIP**

Los Angeles, London, New Delhi, and Singapore (October 2007) – Psychology and law is a practice for clinical, social and experimental psychologists, and it's also a relatively young, but quickly maturing field of scholarship. Encompassing diverse approaches to psychology, its subdivisions contribute key research on the full range of legal issues, from the cognitive (e.g., eyewitness testimony) to the social (e.g., jury behavior).

Filling the research gap dedicated to this rapidly growing, interdisciplinary field is SAGE Reference's comprehensive, new, two-volume ***Encyclopedia of Psychology and Law***. Drawing together scholarship from all of psychology's traditional sub-disciplines as well as various domains of law, legal practice, and public policy, its highly accessible, expert-written, A-to-Z entries explore a broad array of contemporary and historical psychology and law topics separated into Reader's Guide categories such as:

- Criminal Responsibility
- Death Penalty
- Education and Professional Development
- Juvenile Offenders
- Mental Health Law
- Police and Investigative Psychology
- Psychology of Criminal Behavior
- Sentencing and Incarceration
- Trial Processes
- Violence Risk Assessment

An essential addition to all public and academic library collections, SAGE's ***Encyclopedia of Psychology and Law*** is the perfect resource to help students, psychology scientists and practitioners, and members of the legal and public policy professions stay current with the growing knowledge base outside their individual areas of expertise.

Editor **Brian L. Cutler, Ph.D.** is Professor and Chair of the Department of Psychology at the University of North Carolina at Charlotte.

SAGE is a leading international publisher of journals, books, and electronic media for academic, educational, and professional markets. Since 1965, SAGE has helped inform and educate a global community of scholars, practitioners, researchers, and students spanning a wide range of subject areas including business, humanities, social sciences, and science, technology and medicine. A privately owned corporation, SAGE has principal offices in Los Angeles, London, New Delhi, and Singapore. www.sagepublications.com
