**SAGE REFERENCE'S NEW AND CUTTING EDGE
ENCYCLOPEDIA OF GENDER AND SOCIETY PRESENTS THE MOST
UP-TO-DATE UNDERSTANDING OF A UBIQUITOUS, COMPLEX SUBJECT**

Los Angeles, London, New Delhi, Singapore, and Washington DC (October 7, 2008)—Gender is such an intrinsic part of our identities that we often take it for granted, not realizing the extent to which it influences every aspect of our existence. Yet, for decades now, gender scholars have been documenting and analyzing how gender shapes individual lives, cultural beliefs and practices, as well as social and economic organizations.

Presenting the full range of the most current scholarship for the first time in one resource is SAGE Reference's new, two-volume ***Encyclopedia of Gender and Society***. Written by an international team of leaders in the field, the highly accessible, A-to-Z entries cover the major theories, research, people, and issues in contemporary gender studies. The wealth of content is helpfully organized into key categories such as the following:

- Art, Popular Culture, and Sports
- Associations and Organizations
- Biographies
- Body Image, Health, and Illness
- Crime and Criminal Justice
- Economics, Environment, and Ecology
- Gender Identities and Roles
- International Development and Human Rights
- Politics, Public Policy, and Social Movements
- Race and Ethnicity
- Relationships, Marriage, and Family
- Religion, Mythology, and Spirituality
- Science, Research, Education, and Technology
- Sexuality and Reproduction

From cheerleading and GI Joe to the death penalty, farming, and micro-lending, in-depth articles explore issues from the individual to the most global, addressing the complexities of gender in ways that are clear, relevant, and useful.

An essential addition to all public and academic libraries, SAGE's ***Encyclopedia of Gender and Society*** is the ideal resource for all students, researchers, and scholars of the topic.

Editor **Jodi O'Brien** is the Louis B. Gaffney Professor of Arts and Sciences and Chair of the Department of Anthropology and Sociology at Seattle University.

SAGE is a leading international publisher of journals, books, and electronic media for academic, educational, and professional markets. Since 1965, SAGE has helped inform and educate a global community of scholars, practitioners, researchers, and students spanning a wide range of subject areas including business, humanities, social sciences, and science, technology and medicine. A privately owned corporation, SAGE has principal offices in Los Angeles, London, New Delhi, Singapore and Washington DC. www.sagepublications.com
