**UNDERSTAND A BROAD, COMPLEX TOPIC LIKE NEVER BEFORE  
WITH SAGE REFERENCE'S MULTIDISCIPLINARY, NEW  
ENCYCLOPEDIA OF RACE, ETHNICITY, AND SOCIETY**

*Los Angeles, London, New Delhi, and Singapore (February 2008)* – Whether it's explicitly stated or not, race and ethnicity are key factors in debates about governmental leadership, health care, religion, aging, the media, and public policy – as well as housing, music, sports, business, immigration, poverty, and antiterrorism.

SAGE Reference's monumental, new, three-volume ***Encyclopedia of Race, Ethnicity, and Society*** provides a comprehensive, world-wide examination of the roles race and ethnicity play in society – and in our daily lives. Written by an international team of race and ethnicity experts, nearly 600 highly readable A-to-Z entries discuss 100+ racial and ethnic groups, and the full range of pertinent topics falling into key categories such as:

- Criminal Justice
- Economics and Stratification
- Education
- Gender and Family
- Health and Social Welfare
- Immigration and Citizenship
- Legislation, Court Decisions, and Treaties
- Media, Sports, and Entertainment
- Public Policy
- Religion

Drawing on both scholarly studies and broad historical coverage, entries explore other issues of inequality intersecting with race and ethnicity, such as ability, age, class, gender, and sexual orientation. Sociopolitical movements and conflicts, concepts and theories, organizations, and biographies are also presented. Photographs, tables and figures, and custom-designed maps offer a valuable, visual look at race and ethnicity.

Librarians, general readers, students, and scholars will appreciate how SAGE's new ***Encyclopedia of Race, Ethnicity, and Society*** provides a deep foundation for understanding racial and ethnic diversity from a multidisciplinary perspective.

Editor **Richard T. Schaefer** is the Vincent DePaul Professor of Sociology at DePaul University.

**SAGE** is a leading international publisher of journals, books, and electronic media for academic, educational, and professional markets. Since 1965, SAGE has helped inform and educate a global community of scholars, practitioners, researchers, and students spanning a wide range of subject areas including business, humanities, social sciences, and science, technology and medicine.
