**DISCOVER THE FULL RANGE OF ISSUES INVOLVING SCHOOLS
AND SOCIETY WITH SAGE REFERENCE'S UNPRECEDENTED, NEW
ENCYCLOPEDIA OF THE SOCIAL AND CULTURAL FOUNDATIONS OF EDUCATION**

Los Angeles, London, New Delhi, Singapore, and Washington DC (August 19, 2008)—More than any area in education, the social and cultural foundations reflect the tensions and conflicts in American society. This is because the field focuses on vital issues such as race, gender, socioeconomic class, the impact of technology on learning, what it means to be educated, and the role of teaching and learning in a societal context.

SAGE Reference's monumental, new, three-volume *Encyclopedia of the Social and Cultural Foundations of Education* presents the interdisciplinary field's vast quantity of scholarship and knowledge in the only comprehensive reference work of its kind. Written by specialists for the general reader, the first two volumes feature over 400 A-to-Z entries covering the field's evolution and current status, focusing on key categories such as the following:

- movements
- policy issues
- institutions
- major court decisions
- theoretical debates
- methodological approaches

Newly emerging areas such as cultural studies, globalization and education, eco-justice, and technologies in education are examined, as well as traditional topics such as the history and philosophy of education. The third volume presents more than 100 biographies of major educational theorists and practitioners, along with a fascinating visual history of American education comprised of documentary, photographic, and graphic resources.

All public and academic libraries will be sure to obtain SAGE's *Encyclopedia of the Social and Cultural Foundations of Education* so students, researchers, and scholars working across the range of disciplines have access to the most wide-reaching resource available on the topic.

Editor-in-Chief **Eugene F. Provenzo, Jr.** is professor at the University of Miami. Associate Editor **John P. Renaud** is the Education & Psychology Librarian and Assistant Professor in the Research & Educational Services Department of the Otto G. Richter Library at the University of Miami.

SAGE is a leading international publisher of journals, books, and electronic media for academic, educational, and professional markets. Since 1965, SAGE has helped inform and educate a global community of scholars, practitioners, researchers, and students spanning a wide range of subject areas including business, humanities, social sciences, and science, technology and medicine. A privately owned corporation, SAGE has principal offices in Los Angeles, London, New Delhi, Singapore and Washington D.C. www.sagepublications.com
