**UNDERSTAND THE CURRENT STATE OF CRIMINOLOGY
WITH SAGE REFERENCE'S COMPREHENSIVE NEW
21ST CENTURY CRIMINOLOGY: A REFERENCE HANDBOOK**

Los Angeles, London, New Delhi, Singapore, and Washington, D.C. (May 14, 2009) Once a sociological specialty area, criminology has grown into a stand-alone discipline. Still inherently theoretical, the field is now also connected to criminal justice's academic, practitioner, and professional concerns. The topic is also increasingly interdisciplinary, featuring a wide range of perspectives on causes, effects, and responses to crime.

SAGE Reference's comprehensive, new, two-volume **21st Century Criminology: A Reference Handbook** is today's essential, "first-look" reference source for criminological inquires. Written by leading scholars, it presents highly accessible, definitive overviews of 98 key topics regarding traditional criminology and its modern outgrowths. Spotlighting the most important issues, questions, and debates of the 21st century and throughout history, the handbook is divided into six parts:

- The Discipline of Criminology
- Correlates of Crime
- Theories of Crime and Justice
- Measurement and Research in Criminology
- Types of Crime
- Criminology and the Justice System

Public and academic libraries will benefit from acquiring SAGE's **21st Century Criminology: A Reference Handbook** to allow students, researchers, and scholars quick access to authoritative knowledge on key issues and topics central to contemporary criminology. Available in both print and electronic formats, it is the perfect resource for researching term papers and preparing for GREs, and pursuing senior theses, graduate degrees, and professional careers.

Editor **J. Mitchell Miller** is professor and chair of the Department of Criminal Justice at the University of Texas at San Antonio.

SAGE is a leading international publisher of journals, books, and electronic media for academic, educational, and professional markets. Since 1965, SAGE has helped inform and educate a global community of scholars, practitioners, researchers, and students spanning a wide range of subject areas including business, humanities, social sciences, and science, technology and medicine. A privately owned corporation, SAGE has principal offices in Los Angeles, London, New Delhi, Singapore, and Washington, DC. www.sagepublications.com
