OhioLINK gains access to the SAGE Full-Text Collections

Thousand Oaks, California, June 16, 2004 – SAGE Publications and OhioLINK announced that they have reached an agreement giving OhioLINK members online access to all six of the current SAGE Full-Text Collections – the powerful, discipline-specific, full-text research databases developed by SAGE and CSA (Cambridge Scientific Abstracts). The SAGE Full-Text Collections enable researchers and students to search and retrieve the full text of peer-reviewed, high impact journals published by SAGE Publications and participating societies. (www.sagefulltext.com). Through this agreement, OhioLINK also provides their patrons with up to 22 years of back issues containing fully searchable journal articles.

“We are pleased to provide the 85 libraries and institutional members of OhioLINK with access to the SAGE Full-Text Collections,” said Blaise Simqu, Executive Vice President at SAGE Publications. “Students, lecturers, researchers, and librarians at subscribing institutions have given a tremendous welcome to the SAGE Full-Text Collections, as shown by their usage trends. We are pleased that OhioLINK students and faculty will be able to benefit from these premier social science research tools in Communications, Criminology, Education, Politics and International Relations, Psychology and Sociology.”

The Ohio Library and Information Network, OhioLINK, is a consortium of Ohio’s college and university libraries and the State Library of Ohio. Serving more than 600,000 students, faculty, and staff at 85 institutions, OhioLINK’s membership includes 17 public universities, 23 community/technical colleges, 44 private colleges, and the State Library of Ohio. OhioLINK serves faculty, students, staff, and other researchers via campus-based electronic library systems, the OhioLINK central site, and Internet resources.

About SAGE

SAGE Publications is a leading international publisher of journals, books, and electronic media for academic, educational, and professional markets. Since 1965, SAGE has helped inform and educate a global community of scholars, practitioners, researchers, and students. SAGE Publications, a privately owned corporation, has principal offices in Thousand Oaks, California, and in London, United Kingdom.

SAGE Publications is a member of CrossRef and of the COUNTER Project.

About CSA

CSA, a Cambridge Information Group company, is a leading publisher of bibliographic databases and print journals used by more than 4,000 research institutions worldwide. CSA annually publishes more than 500,000 abstracts culled from more than 9,400 journals. Its award-winning Internet Database Service provides Web access to more than 50 bibliographic databases covering major areas of research, including materials science, environmental sciences and pollution management, biological sciences, aquatic sciences and fisheries.
biotechnology, engineering, computer science, sociology, information technology, art history, political science, and linguistics. For more information, visit www.csa.com.
