**SAGE FULL-TEXT COLLECTIONS NOW AVAILABLE TO THE  
COLORADO ALLIANCE OF RESEARCH LIBRARIES CONSORTIUM**

**Participating libraries gain access to 10 SAGE Full-Text Collections**

*Thousand Oaks, CA and London, UK, and New Delhi, India (May 25, 2006)* – SAGE Publications and CSA (Cambridge Scientific Abstracts) announced today that an agreement has been signed providing all 10 *SAGE Full-Text Collections* to participating libraries of the Colorado Alliance of Research Libraries, the consortium representing 12 major libraries in Colorado and Wyoming.

Important resources for scholars and researchers, the *SAGE Full-Text Collections* are award-winning, discipline-specific research databases of peer-reviewed journals from SAGE and participating societies, containing more than 220 journals (many ISI ranked) and over 160,000 articles with all the original graphics. Now, under this new agreement, many Colorado research libraries will be able to access both the latest journal issues as well as backfiles, some going as far back as 59 years!

“We are pleased to provide the participating Colorado and Wyoming libraries with access to the *SAGE Full-Text Collections*,” commented David Horwitz, SAGE’s Vice President of Sales. “Now students and faculty will be able to join other consortia participants across the nation who’ve been enjoying research benefits from *Collections* covering Communications Studies, Criminology, Education, Health Sciences, Management & Organization Studies, Materials Science, Political Science, Psychology, Sociology, and Urban Studies.”
