About the Author  xxvi

PART I: INTRODUCING CLINICAL PSYCHOLOGY  1

1  Clinical Psychology: Definition and Training  3
    What Is Clinical Psychology?  4
        Original Definition  4
        More Recent Definitions  4
    Education and Training in Clinical Psychology  5
        Balancing Practice and Science: The Scientist-Practitioner (Boulder) Model  6
        Leaning Toward Practice: The Practitioner-Scholar (Vail) Model  7
            Box 1.1: Comparing PhD Programs With PsyD Programs  8
        Leaning Toward Science: The Clinical Scientist Model  9
    Getting In: What Do Graduate Programs Prefer?  13
        Box 1.2: Interview Questions to Anticipate  16
    Internships: Predoc and Postdoc  16
    Getting Licensed  18

Professional Activities and Employment Settings  19
    Where Do Clinical Psychologists Work?  19
    What Do Clinical Psychologists Do?  20

How Are Clinical Psychologists Different From . . .  20
    Counseling Psychologists  20
    Psychiatrists  22
    Social Workers  22
    School Psychologists  23
    Professional Counselors  23

Chapter Summary  24
Key Terms and Names  24
Critical Thinking Questions  25
4 Cultural Issues in Clinical Psychology

The Rise of Multiculturalism in Clinical Psychology

The Diversification of the U.S. Population

Multiculturalism as the “Fourth Force”

Recent Professional Efforts to Emphasize Issues of Culture

Cultural Competence

What Is Cultural Competence?

Cultural Self-Awareness

Box 4.1: Considering Culture: Interviews With Multicultural Experts

Knowledge of Diverse Cultures

Box 4.2: Metaphorically Speaking: If You’ve Seen Yao Ming, You Understand Heterogeneity Within a Culture

Culturally Appropriate Clinical Skills

Are We All Alike? Or All Different?

Etic Versus Emic Perspective

Tripartite Model of Personal Identity

What Constitutes a Culture?

Narrow Versus Broad Definitions

Interacting Cultural Variables

Training Psychologists in Cultural Issues

Educational Alternatives

Measuring the Outcome of Culture-Based Training Efforts

An Example of Culture Influencing the Clinical Context: The Parent–Child Relationship

Chapter Summary

Key Terms and Names

Critical Thinking Questions

5 Ethical Issues in Clinical Psychology

American Psychological Association Code of Ethics

Aspirational and Enforceable

Ethical Decision Making
Psychologists’ Ethical Beliefs 103

Confidentiality 104

Tarasoff and the Duty to Warn 104

When the Client Is a Child or Adolescent 105

Box 5.1: Considering Culture: Confidentiality, Ethnicity, and Family 107

Informed Consent 110

Boundaries and Multiple Relationships 111

Defining Multiple Relationships 111

What Makes Multiple Relationships Unethical? 113

Competence 114

Ethics in Clinical Assessment 117

Ethics in Clinical Research 118

Contemporary Ethical Issues 119

Managed Care and Ethics 119

Technology and Ethics 120

Ethics in Small Communities 120

Box 5.2: Metaphorically Speaking: If You’ve Played the
Six Degrees of Kevin Bacon” Game, You Understand Multiple
Relationships in Small Communities 121

Chapter Summary 122

Key Terms and Names 123

Critical Thinking Questions 124

6 Conducting Research in Clinical Psychology 125

Why Do Clinical Psychologists Do Research? 126

Treatment Outcome 126

Box 6.1: Measuring Therapy Outcome: Essential Questions 126

Efficacy Versus Effectiveness 127

Internal Versus External Validity 129

Box 6.2: Considering Culture: Treatments That Work, but for Whom? 129

Assessment Methods 131

Diagnostic Issues 132

Professional Issues 133

Teaching and Training Issues 134

How Do Clinical Psychologists Do Research? 135

The Experimental Method 135

Quasi-Experiments 135

Between-Group Versus Within-Group Designs 136

Analogue Designs 137

Correlational Methods 137

Case Studies 138
Components of the Interview 177
   Rapport 177
   Technique 178
      Box 8.1: Considering Culture: Communication Across Cultures 179
      Box 8.2: Metaphorically Speaking: If You’ve Taken Multiple Choice, True/False, and Essay Exams, You Understand Open- and Closed-Ended Interview Questions 181
   Conclusions 184
Pragmatics of the Interview 184
   Note Taking 184
   Audio and Video Recordings 185
   The Interview Room 185
   Confidentiality 187
Types of Interviews 187
   Intake Interviews 188
   Diagnostic Interviews 188
   Mental Status Exam 191
   Crisis Interviews 192
Cultural Components 193
   Appreciating the Cultural Context 193
      Box 8.3: Interview Questions to Consider When Inquiring About the Cultural Backgrounds of Clients 194
   Acknowledging Cultural Differences 194
Chapter Summary 195
Key Terms 196
Critical Thinking Questions 196

9 Intellectual and Neuropsychological Assessment 198
Intelligence Testing 199
   Classic Theories of Intelligence 199
   More Contemporary Theories of Intelligence 200
      Box 9.1: Metaphorically Speaking: If You’ve Watched Michael Jordan, Then You Understand Challenges of Defining and Assessing Intelligence 201
   Wechsler Intelligence Tests 202
   Stanford-Binet Intelligence Scales—Fifth Edition 207
   Additional Tests of Intelligence: Addressing Cultural Fairness 208
Achievement Testing 210
   Achievement Versus Intelligence 210
      Box 9.2: Considering Culture: Defining Intelligence Around the World 211
   Wechsler Individual Achievement Test—Third Edition 216
Neuropsychological Testing 216
10 Personality Assessment and Behavioral Assessment 223
Multimethod Assessment 224
Evidence-Based Assessment 225
Culturally Competent Assessment 226
Box 10.1: Considering Culture: Culture-Specific Norms for Personality Tests 227
Objective Personality Tests 229
Minnesota Multiphasic Personality Inventory-2 229
Box 10.2: Simulated MMPI-2 Items 229
Box 10.3: Metaphorically Speaking: If You’ve Shopped on Amazon.com, You Understand Empirical Criterion Keying 230
Millon Clinical Multiaxial Inventory-III 236
NEO Personality Inventory-Revised 237
California Psychological Inventory-III 238
Beck Depression Inventory-II 239
Projective Personality Tests 240
Rorschach Inkblot Method 241
Thematic Apperception Test 243
Box 10.4: Simulated TAT Card 12F With Simulated Responses 243
Sentence Completion Tests 245
Behavioral Assessment 246
Methods of Behavioral Assessment 247
Technology in Behavioral Assessment 248
Chapter Summary 249
Key Terms and Names 250
Critical Thinking Questions 250

PART III: PSYCHOTHERAPY 253

11 General Issues in Psychotherapy 255
Does Psychotherapy Work? 256
Whom, When, and How Should Researchers Ask? 257
Box 11.1: Considering Culture: Culture-Specific Expectations About Psychotherapy 258
13 Humanistic Psychotherapy

Humanistic Concepts: Clinical Implications 310
Goal of Humanistic Psychotherapy 311
Elements of Humanistic Psychotherapy 313
   Empathy 314
   Unconditional Positive Regard 314
      Box 13.1: Considering Culture: Empathy Across Cultures 315
   Genuineness 316
   Necessary and Sufficient? 317
   Therapist Attitudes, Not Behaviors 317

Reflection: An Important Therapist Response 318
   Box 13.2: Metaphorically Speaking: If You’ve Looked in a Magnifying Mirror, Then You Understand Reflection 319

Alternatives to Humanism 320
   Historical Alternatives 320
   Motivational Interviewing 321
   Positive Interventions and Strength-Based Counseling 323
   Other Contemporary Alternatives 324

How Well Does It Work? 325
   Box 13.3: Denise in Humanistic Psychotherapy 326

Chapter Summary 328
Key Terms and Names 328
Critical Thinking Questions 329

14 Behavioral Psychotherapy

Origins of Behavioral Psychotherapy 332
Goal of Behavioral Psychotherapy 334
   Emphasis on Empiricism 334
   Defining Problems Behaviorally 335
   Measuring Change Observably 337
Two Types of Conditioning 338
Classical Conditioning 338
Operant Conditioning 339

Techniques Based on Classical Conditioning 340
Exposure Therapy 340
Systematic Desensitization 342
Assertiveness Training 342
Box 14.1: Considering Culture: Assertiveness Training and Collectivist Values 344

Techniques Based on Operant Conditioning 345
Contingency Management 345
Extinction 346
Box 14.2: Metaphorically Speaking: If You’ve Lost Money in a Soda Machine, You Understand Extinction and the Extinction Burst 347
Token Economies 348
Shaping 349
Behavioral Activation 350
Observational Learning (Modeling) 351

Alternatives to Behavior Therapy 352
Behavioral Consultation 352
Parent Training 353
Teacher Training 354

How Well Does It Work? 355
Box 14.3: Denise in Behavioral Psychotherapy 356

Chapter Summary 357
Key Terms and Names 357
Critical Thinking Questions 358

15 Cognitive Psychotherapy 360
Goal of Cognitive Therapy 362
The Importance of Cognition 362
Revising Cognitions 364
Teaching as a Therapy Tool 365
Homework 365
Box 15.1: Considering Culture: Cognitive Therapy With Lesbian, Gay, Bisexual, and Transgender Clients 366
A Brief, Structured, Focused Approach 367

Two Approaches to Cognitive Therapy 368
Albert Ellis 368
Box 15.2: Considering Culture: Are Some Beliefs too Sacred to Dispute? 371
Aaron Beck 372
Box 15.3: Metaphorically Speaking: If You’ve Seen Attorneys Argue in Court, Then You Understand How Cognitive Therapists Dispute Thought Distortions 375

Recent Applications of Cognitive Therapy 376
The Third Wave: Mindfulness- and Acceptance-Based Therapies 377
Cognitive Therapy for Medical Problems 382

How Well Does It Work? 383
Box 15.4: Denise in Cognitive Psychotherapy 384

Chapter Summary 385
Key Terms and Names 386
Critical Thinking Questions 386

16 Group and Family Therapy 388

Group Therapy 389
An Interpersonal Emphasis 389
Practical Issues in Group Therapy 394
Ethical Issues in Group Therapy 396
How Well Does It Work? 396
Box 16.1: Denise in Group Therapy 397

Family Therapy 399
The System as the Problem 399
Box 16.2: Considering Culture: Gender, Abuse, and Family Therapy 401
Assessment of Families 402
Box 16.3: Metaphorically Speaking: If You’ve Been to a Car Repair Shop, You Understand Systems Theory 404
Family Therapy: Essential Concepts 406
Ethical Issues in Family Therapy 410
How Well Does It Work? 412

Chapter Summary 413
Key Terms and Names 413
Critical Thinking Questions 414

PART IV: SPECIAL TOPICS 417

17 Clinical Child and Adolescent Psychology 419

Psychological Issues of Childhood 420
Disorders of Childhood 420
Resilience and Vulnerability 421
Box 17.1: Factors Fostering Resilience in Children 422
Assessment of Children and Adolescents 423
The Developmental Perspective 423
  Box 17.2: Considering Culture: Parent–Child Relationships Across Cultures 424
A Comprehensive Assessment 426
Assessment Methods 428
The Frequency of Use of Specific Assessment Techniques 433

Psychotherapy With Children and Adolescents 435
Cognitive-Behavioral Therapies for Children 436
Self-Instructional Training 437
  Box 17.3: Metaphorically Speaking: If You’ve Had Dancing Lessons, You Understand Self-Instructional Training 438
Parent Training 439
Play Therapy 441
How Well Does Psychotherapy for Children and Adolescents Work? 444

Chapter Summary 445
Key Terms and Names 446
Critical Thinking Questions 446

18 Health Psychology 448
Laura A. Pawlow and Andrew M. Pomerantz

Definitions: Health Psychology Versus Behavioral Medicine 449
Stress 450
Stress and Physical Illness 451
Stress and Coping 452
  Box 18.1: Considering Culture: Physical and Psychological Expressions of Depression Across Cultures 454
Social Support 455
Clinical Applications 456
  Weight Management 457
  Smoking 459
  Alcohol Abuse and Dependence 461
  Pain Management and Biofeedback 462
  Box 18.2: Metaphorically Speaking: If You’ve Used Exercise Equipment With a Heart Rate Monitor, You Understand Biofeedback 463
  Box 18.3: Sample of an Abbreviated Progressive Relaxation Training Script 464
  Compliance With Medical Regimens 465
  Coping With Medical Procedures 466
A New Trend in Health Psychology: Patient-Centered Medical Homes 468
Cultural Factors in Health Psychology 469
19 Forensic Psychology
Bryce F. Sullivan and Andrew M. Pomerantz

Definition and History 473
Forensic Activities of Clinical Psychologists 476
   Assessment Activities 476
   Box 19.1: Metaphorically Speaking: If You’ve Bought Car Insurance, You Understand Clinical and Statistical Methods of Predicting Dangerousness 479
   Treatment and Other Forensic Activities 489
   Box 19.2: Considering Culture: Cultural Competence in Forensic Clinical Psychology 490
   Box 19.3: From Abu Ghraib to Guantanamo Bay: Psychology and the Nuremberg Ethic 495
