Special Issue: STEM Manuscripts Call for Proposals

*Journal of Advanced Academics (JoAA)* is planning a special issue on Science, Technology, Engineering, and Mathematics (STEM), to be published summer 2014 and is seeking proposals for manuscripts. Manuscripts should focus on STEM research that supports and enhances advanced academic achievement for students of all ages. These manuscripts may feature strategies for increasing academic achievement, programs that promote high levels of academic achievement and engagement, or programs that prepare students to engage in high-level and rigorous academics. We are most interested in empirical articles but will also consider review and theoretical papers. The deadline for proposal submissions is March 22, 2013. Prospective authors will find it useful to consult information about publishing in JoAA at [http://tinyurl.com/JoAAsubmission](http://tinyurl.com/JoAAsubmission). This issue will be guest edited by Dr. Jill Adelson, University of Louisville, along with Dr. Scott Chamberlain, University of Wyoming, and Dr. Eric Mann, Purdue University.

Proposals should include a title and a 100 – 250 word abstract.

The timeline for this special issue is as follows:

- Proposals for manuscripts due on March 22, 2013
- Authors notified of proposal acceptance no later than April 15, 2013 (Please note that acceptance of a proposal does not guarantee acceptance of submitted manuscripts. Final manuscripts will go through blinded review and must be accepted by the reviewers.)
- Manuscripts due no later than August 1, 2013
- Reviews and action letters to authors by October 15, 2013
- Revisions due back from authors within 1 month of receipt, with the revising and editing process from October to February
- Final accepted manuscripts completed and returned to guest editor by the end of March, 2014
- Authors review proofs of articles – spring 2014
- Issue published in *JoAA* 25(3), August 2014

Submit proposals through an attached Word document by e-mail to *JoAA* Guest Editor of Special Issue, Dr. Jill Adelson, University of Louisville, at *jill.adelson@louisville.edu*. Manuscript submissions will be submitted electronically through the *JoAA* online submission page at [http://mc.manuscriptcentral.com/joaa](http://mc.manuscriptcentral.com/joaa).

If you have questions or need additional information, please contact the Guest Editorial Staff at *jill.adelson@louisville.edu, scott@uwyo.edu*, and *elmann@purdue.edu*, including all three Guest Editors in the email.
