Indexed in CINAHL, MEDLINE, PsychINFO, Scopus, EMCare

The Journal of School Nursing (JOSN) is the official journal of the National Association of School Nurses. Published bimonthly, it provides a forum for advancing the specialty of school nursing, contributing to knowledge development about school nursing practice, and promoting the professional growth of school nurses. **JOSN** publishes original clinical and nonclinical research papers, evidence-based practice innovations, research reviews, case reports, and commentaries related to school nursing and school health.

JOSN's focus includes the broad range of issues and problems confronting the school nurse today, which can be generally characterized as

- Age- or grade-specific problems
- Developmental issues
- Family and caregiver situations
- Specific disease conditions
- Behavioral problems
- Professional and school issues

Supplements: *Journal of School Nursing* publishes supplements on special topics of relevance. If you are interested in developing or sponsoring a **JOSN** supplement, please contact **Barbara Eisenberg** at SAGE, (805) 410-7763, barbara.eisenberg@sagepub.com.

Specific journal topics include:

Age / Grade Specific Health
