5-Year Impact Factor: 1.3

Submission guidelines

Submit manuscript

Please read the guidelines in full before submitting your manuscript. Manuscripts not conforming to these guidelines may be returned.

[Visit Submission Site](#) 

This Journal is a member of the [Committee on Publication Ethics](#).

The Journal recommends that authors follow the [Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals](#) formulated by the International Committee of Medical Journal Editors (ICMJE).

Sage is committed to upholding the integrity of the academic record. We encourage authors to refer to the Committee on Publication Ethics' [International Standards for Authors](#) and view the [author responsibilities section](#) on the Sage Journal Author Gateway.

We also encourage you to familiarize yourself with our [Editorial Policies](#) and our [Publication Ethics Policies](#).

Sage Publishing disseminates high-quality research and engaged scholarship globally, and we are committed to diversity and inclusion in publishing. We encourage submissions and peer review from a diverse range of authors and reviewers from across all countries and backgrounds. [Read our diversity, equity, and inclusion pledge.](#)

There are no fees payable to submit or publish in this journal. Open access options are available – see below.

Please read the guidelines below then [submit your manuscript here](#).

Key information

Access: Subscription

Accepts preprints? No

Identity transparency: Double anonymized

Publishing fees and open access

There are no fees payable to submit or publish in this journal.

Figures submitted in color will be published in color in the online version of the journal at no cost.

Optional open access publishing is available for a fee via the [Sage Choice program](#), and Open Access agreements, where authors can publish open access either discounted or free of charge depending on the agreement with Sage. Find out if your institution is participating by [visiting Open Access Agreements at Sage](#). Open Access agreement eligibility is determined by the corresponding author's affiliation matching an agreement at acceptance. For more information on Open Access publishing options at Sage please [visit Sage Open Access](#).

For information on funding body compliance, and depositing your article in repositories, please [visit Sage's Author Archiving and Re-Use Guidelines](#) and [Publishing Policies](#).

Preparing your manuscript for submission

Your article must be within the scope of the journal and be of sufficient quality. If not, it will not be reviewed. Please read the journal's [Aims and Scope](#) to see if your article is appropriate.

The manuscript must be your original work, you must have the rights to the work, and you must have obtained and be able to supply all necessary permissions for the reproduction of any copyright works not owned by you, including figures, illustrations, tables, lengthy quotations, or other material previously published elsewhere.

Article types

Please visit the Sage Journal Author Gateway for [guidance on producing visual and/or video abstracts](#).

[View our published topical collections currently accepting submissions.](#)

Please read these accepted [Article Types](#) before submitting to *Australasian Psychiatry*.

The word limit and guidance on references, tables and figures is detailed on this [table of article types](#). Editorials and Book Reviews are only submitted by invitation from the journal Editorial team and Editorials will not be peer-reviewed.

A section of the journal provides information on RANZCP business and related matters. Submitted articles are accepted for further consideration by the Editor on the condition that the authors may be expected to review another submission to the journal.

If you wish to discuss the content or suitability of your article, please contact the Editor in Chief, Jeffrey Looi, via email: jeffrey.looi@anu.edu.au

Clinical trial registration

The journal conforms to the [ICMJE requirement](#) that clinical trials are registered in a [WHO-approved public trials registry](#) at or before the time of first participant enrollment as a condition of consideration for publication. The trial registry name and URL, and registration number must be included at the end of the abstract.

Reporting guidelines

Your manuscript **must** follow the relevant [EQUATOR Network reporting guidelines](#), depending on the type of study. The [EQUATOR wizard](#) can help identify the appropriate guideline. You will need to upload the appropriate checklist with your submission.

Other resources can be found at [NLM's Research Reporting Guidelines and Initiatives](#).

If your research involves animals, you will be asked to confirm that you have carefully read and adhered to the [ARRIVE guidelines](#).

Formatting your manuscript

Accepted file types

The preferred format for your manuscript is Word. You do not need to follow a template, but please ensure your heading levels are clear, and the sections clearly defined.

The text should be double-spaced throughout and with a minimum of 3cm for left and right hand margins and 5cm at head and foot. Text should be standard 12 point and in Times New Roman.

The LaTeX files are also accepted. A LaTeX template is available on the [Sage Journal Author Gateway](#).

Your article title, keywords, and abstract all contribute to its position in search engine results, directly affecting the number of people who see your work. For details of what you can do to influence this, visit [How to help readers find your article online](#).

Title

Your manuscript's title should be concise, descriptive, unambiguous, accurate, and reflect the precise contents of the manuscript. A descriptive title that includes the topic of the manuscript makes an article more findable in the major indexing services.

Abstract

Please include a structured abstract of 200 words between the title and main body of your manuscript that concisely states the purpose of the research, major findings, and conclusions. If your research includes clinical trials, the trial registry name and URL, and registration number must be included at the end of the abstract. Submissions that do not meet this requirement will not be considered.

In the case of articles that are primarily opinion pieces, the abstract should have the headings Objective and Conclusions. For Viewpoint or Editorial articles, a maximum 100 word unstructured abstract must be included. This Abstract/Summary MUST be included in the main manuscript file, after the title page but before the key words and the main text for all articles. No abstracts are required for Correspondence or Book Reviews.

For clinical trials, the trial registry name and URL, and registration number must be included at the end of the abstract.

Keywords

Up to five key words should be provided after the Conclusions section of the abstract. These key words MUST be included in the main manuscript file uploaded for

consideration. They should be placed after the abstract but before the main text starts.

Artwork, figures, and other graphics

For guidance on the preparation of illustrations, pictures, and graphs in electronic format, please read Sage's [artwork guidelines](#).

Figures supplied in color will appear in color online regardless of whether or not these illustrations are reproduced in color in the printed version. If you have requested color reproduction in the print version, we will advise you of the costs on receipt of your accepted article.

Please ensure that you have obtained any necessary permission from copyright holders for reproducing any illustrations, tables, figures, or lengthy quotations previously published elsewhere. For further information including guidance on fair dealing for criticism and review, please see the [Frequently Asked Questions page](#) on the Sage Journal Author Gateway.

Title page

To ensure fair and anonymous peer review, your manuscript must be fully anonymized. Please ensure any identifying information is removed from the main manuscript document and included on the Title Page instead. Do not include any author names in the manuscript file name and remove names from headers and footers. This version of the manuscript **will** be sent to the peer reviewers. The Title Page **will not** be sent to peer reviewers. See the Sage Journal Author Gateway for [detailed guidance on making an anonymous submission](#).

The Title Page should include:

- Article title
- The full list of authors including names and affiliations of each
 - **The listed affiliation should be the institution where the research was conducted.** If an author has moved to a new institution since completing the research, the new affiliation can be included in a note at the end of the manuscript – please indicate this on the title page.
 - **All persons eligible for authorship must be included at the time of submission (please see the authorship section for more information).**
- Contact information for the corresponding author: name, institutional address, phone, email
- Acknowledgments section
- Declaration of conflicting interest
- Funding statement
- Ethical approval and informed consent statements

- Data availability statement
- Any other identifying information related to the authors and/or their institutions, funders, approval committees, etc, that might compromise anonymity.

Acknowledgments

If you are including an Acknowledgements section, this will be published at the end of your article. The Acknowledgments section should include all contributors who do not meet the criteria for authorship. Per [ICMJE recommendations](#), it is best practice to obtain consent from non-author contributors who you are acknowledging in your manuscript.

Writing assistance and third party submissions: if you have received any writing or editing assistance from a third-party, for example a specialist communications company, this must be clearly stated in the Acknowledgements section and in the covering letter. Please see the [Sage Author Gateway](#) for what information to include in your Acknowledgements section. If your submission is being made on your behalf by someone who is not listed as an author, for example the third-party who provided writing/editing assistance, you must state this in the Acknowledgements and also in your covering letter. **Please note that the journal editor reserves the right to not consider submissions made by a third party rather than by the author/s themselves.**

Author contributions

You will be asked to list the contribution of each author as part of the submission process. Please include the Author Contributions heading within your submission after the Acknowledgements section. The information you give on submission will then show under the Author Contributions heading later at the proofing stage.

Statements and declarations

To ensure proper anonymization, please include a section with the heading 'Statements and Declarations' on your title page, after the Acknowledgements section [and Author Contributions section if applicable] including each of the sub-headings listed below. If a declaration is not applicable to your submission, you must still include the heading and state 'Not applicable' underneath. Please note that you may be asked to justify why a declaration was not applicable to your submission by the Editorial Office. This information will be added to the end of your published paper.

Ethical considerations

Please include your ethics approval statements under this heading, even if you have already included ethics approval information in your methods section. If ethical approval was not required, you need to explicitly state this. You can find information on what to say in your ethical statements as well as example statements on our [Publication ethics and research integrity policies page](#).

All papers reporting studies involving human participants, human data or human tissue must state that the relevant Ethics Committee or Institutional Review Board approved the study, or waived the requirement for approval, providing the full name and institution of the review committee in addition to the approval number. If applicable, please also include this information in the Methods section of your manuscript.

Consent to participate

Please include any participant consent information under this heading and state whether informed consent to participate was written or verbal. If the requirement for informed consent to participate has been waived by the relevant Ethics Committee or Institutional Review Board (i.e. where it has been deemed that consent would be impossible or impracticable to obtain), please state this. If this is not applicable to your manuscript, please state 'Not applicable' in this section. More information and example statements can be found on our [Publication ethics and research integrity policies page](#).

Consent for publication

Submissions containing any data from an individual person (including individual details, images or videos) must include a statement confirming that informed consent for publication was provided by the participant(s) or a legally authorized representative. Non-essential identifying details should be omitted. Please do not submit the participant's actual written informed consent with your article, as this in itself breaches the patient's confidentiality. The Journal requests that you confirm to us, in writing, that you have obtained written informed consent to publish but the written consent itself should be held by the authors/investigators themselves, for example in a patient's hospital record. The confirmatory letter may be uploaded with your submission as a separate file in addition to the statement confirming that consent to publish was obtained within the manuscript text. If this is not applicable to your manuscript, please state 'Not applicable' in this section.

Declaration of conflicting interest

The journal requires a declaration of conflicting interests from all authors so that a statement can be included in your article. For guidance on conflict of interest statements, see our [policy on conflicting interest declarations](#) and the [ICMJE recommendations](#).

If no conflict exists, your statement should read: ‘The author(s) declared no potential conflicts of interest with respect to the research, authorship, and/or publication of this article’.

Funding statement

All articles need to include a funding statement, under a separate heading, **even if you did not receive funding**. You’ll find guidance and examples on our [Funding](#) page.

Data availability

The Journal is committed to facilitating openness, transparency and reproducibility of research, and has the following research data sharing policy. For more information, including FAQs please [visit the Sage Research Data policy pages](#).

As a condition of publication authors are required to:

- Share your research data in a relevant public data repository
- Include a data availability statement. This should:
 - Indicate if data is available and shared
 - In certain cases, indicate if research data is available but not shared, and why. If you cannot share your data and this is a requirement of publication, consult the journal editorial office.
 - Indicate if there is an absence of data
- Cite data in your research

Reference style and citations

The journal follows the Sage Vancouver reference style. View the [Sage Vancouver guidelines](#) to ensure your manuscript conforms.

In the main text, references should be identified by consecutive superscript Arabic numerals, e.g.:

“This finding was first reported by Smith¹, although subsequent workers ²⁻⁷ have failed to replicate it.”

Number the references in the order in which they occur in the text. However, once a reference is cited, all subsequent citations should refer to the original number.

At the end of the paper, list references in consecutive numerical order (not alphabetically). Cite the names of all authors when there are three or fewer; when there are seven or more, list the first three followed by et al.

Unpublished data and personal communications should not be listed as references, but may be referred to in the main text as: (Brown J, unpubl. data, 2006) or (Smith J, pers. comm., 2005). Articles accepted for publication may be placed in the reference list with the phrase “(in press)” inserted after the authors, title and full name of the journal.

Journal article

1. Mellsop G, Wilson J. Outcome measures in mental health services: Humpty Dumpty is alive and well. *Australasian Psychiatry* 2006; 14: 137–140. (DO NOT INCLUDE ISSUE NUMBER.)

Chapter in edited book

2. Szmukler G. Ethics in community psychiatry. In: Bloch S, Chodoff P, Green SA, eds. *Psychiatric Ethics*, 3rd edn. New York: Oxford University Press, 1999; 363–381.

Book

3. Mendelson G. *Psychiatric Aspects of Personal Injury Claims*. Springfield, Illinois: Charles C. Thomas, 1988.

Electronic material

4. Medical Board South Australia. Statement Guidelines Clinical Governance http://www.medicalboardsa.asn.au/pdf_files/FOI/Information%20Statement%20FOI.pdf.

Please note: All journal titles must be quoted in full (no abbreviations); punctuation of the year, volume number and page numbers must be precisely in accordance with the previous examples; no part of any reference is to be underlined. When referring to books, the city in which the book was published and the publisher’s name must be stated; the words Company, Co., Limited, Pty Ltd, Inc., etc are not to be included. Articles should have no more than 30 references in total. Editorials can have up to 10 references.

Correspondence (letters) and book reviews must have no more than five references.

It is essential that authors conform strictly to this style. Papers with nonconforming reference style will be returned and will not be considered for publication until the paper in the correct format is resubmitted.

Every in-text citation must have a corresponding citation in the reference list and vice versa. Corresponding citations must have identical spelling and year.

Authors should update any references to preprints when a peer reviewed version is made available, to cite the published research. Citations to preprints are otherwise discouraged.

EndNote

If you use [EndNote](#) to manage references, you can download the [Sage Vancouver EndNote output file](#)

Supplemental material

This Journal can host additional materials online (e.g. datasets, podcasts, videos, images etc.) alongside the full text of the article. Your supplemental material must be one of our accepted file types. For that list and more information please refer to our [guidelines on submitting supplemental files](#).

English language editing services

Authors seeking assistance with English language editing, translation, or figure and manuscript formatting to fit the journal's specifications should consider using Sage Author Services. Visit [Sage Author Services](#) for further information.

Submitting your manuscript

As part of the submission process you will need to confirm that this is your original work, that you have the rights in the work, that this is for first publication in this Journal, that it is not being considered for/has not already been published elsewhere, and that you have obtained and can supply all necessary permissions for the reproduction of any copyright works not owned by you.

Please see our [guidelines on prior publication](#)

When submitting your revised manuscript please make sure to upload a clean version alongside a version with tracked/highlighted changes.

Preprints

The journal does not accept submissions of manuscripts that have been posted on preprint servers.

Submission site

[Submit your manuscript online via Sage Track.](#)

IMPORTANT: Please check whether you already have an account in Sage Track before trying to create a new one. If you have reviewed or authored for the journal in the past year it is likely that you will have had an account created. For further guidance on submitting your manuscript online please visit [ScholarOne Online Help](#).

Manuscripts should only be submitted with the consent of all contributing authors. The individual responsible for submitting the manuscript should carefully check that all those whose work contributed to the manuscript are listed as authors.

Ensure you upload all relevant manuscript files, including any additional supplemental files (including reporting guidelines where relevant).

Authorship

Please [view our authorship policies](#), which includes information on criteria for authorship, who should be the corresponding author and more.

Please note that AI chatbots, for example ChatGPT, should not be listed as authors. For more information see the [policy on Use of ChatGPT and generative AI tools](#).

Files

- **Cover letter.** To help the Editor in their preliminary evaluation, please indicate why you think the manuscript is suitable for publication. Where case descriptions are included, patient confidentiality must be strictly observed. Authors must confirm, in the accompanying letter to the Editor and in the article, that all identifying information has been removed/altered, and that written consent has been obtained from the patient for submission of the report.
- **Title Page** with all required identifying information as laid out in Preparing your manuscript for submission (above). This **will not** be sent to the peer reviewers.
- Your **manuscript**, properly formatted and anonymized according to all stipulations above, and within the scope of the journal. Any information that compromises the anonymity of the author(s) should be removed or anonymized and included on the Title Page instead. See above for more information on anonymization. This version **will** be sent to the peer reviewers.
- Authors must state a de-anonymised ethics statement on the title page and an anonymised ethic statement on the main document itself. Should the manuscript successfully pass through peer review, authors will be requested to provide a manuscript with a de-anonymised ethics statement.
- **Figures and images.**
 - Illustrations (line drawings and photographs) are classified as figures. Figures should be cited in consecutive order in the text. Figures should be sized to fit within the

column (82 mm) and submitted, preferably, at final size.

- Line figures should be supplied as sharp graphs or diagrams, drawn professionally or with a computer graphics package. After reduction, the size of the capital letters should be about 2 mm. Allowance should be made for lines and text becoming smaller and thinner on reduction.
- Tables should be consecutively numbered in Arabic numerals with each table presented in a separate document.
- All figures must be numbered consecutively in the order in which they appear in the text – they will appear in the published article in the order they are numbered.
- **Electronic files** of all figures are essential and the file formats EPS (encapsulated postscript) and TIFF (tagged image file) are recommended: files must be supplied at a resolution of at least 300 d.p.i. at full size. Figures should be saved individually and separate to the text.
- **Pejorative language:** Do not use pejorative labels like ‘schizophrenics’, ‘psychotics’ and ‘neurotics’. Instead, refer to ‘patients with schizophrenia’, etc.
- **Abbreviations:** Abbreviations should in general be avoided. However, phrases may be abbreviated if their shortened form is widely known and they are used repeatedly (e.g. CNS, CSF, MAOI). When first used in the text, they must be spelt out in full followed by the abbreviation in parentheses.
- **Supplemental material.** This journal can host additional materials online (e.g. datasets, podcasts, videos, images, etc) alongside the full-text of the article. Your supplemental material must be one of our accepted file types. For that list and more information please refer to our [guidelines on submitting supplemental files](#).
- Sage will only publish supplemental material subject to full copyright clearance. This means that if the content of the file is not original to the author, then the author will be responsible for clearing all permissions prior to publication. The author will be required to provide copies of permissions and details of the correct copyright acknowledgement.

Copyright in article supplemental material depends on the source of that material:

If the content is the property of the author – the author needs to grant a non-exclusive licence to Royal Australian and New Zealand College of Psychiatrists (RANZCP), using the following statement:

“grants the Royal Australian and New Zealand College of Psychiatrists a non-exclusive worldwide licence to reproduce and publish the aforementioned material as supplemental material to Australasian Psychiatry in the English language in all print and electronic formats of Australasian Psychiatry for the life of Australasian Psychiatry, including any future Royal Australian and New Zealand College of Psychiatrists print and electronic media, formats and products which may include Australasian Psychiatry in its entirety. Full copyright acknowledgement will be made to the rights holder for this use.”

If the content belongs to a third party – authors will need to clear (and pay, where necessary) all permissions prior to our posting any third party content, and provide us with copies of the permissions and details of the correct copyright acknowledgement for our site. The wording above can be sent to the third party copyright holders and be used for them too.

Please note that data supplements are permanent records just like the articles themselves – i.e., they may not be altered after they have gone live (been published).

Other information required for submission

- ORCID ID of the submitting author.
 - It is strongly encouraged that all co-authors ensure their ORCID IDs are linked to their accounts in the submission system prior to article acceptance, as this is the only way to have their ORCID ID present on the published article. **ORCID IDs cannot be added to manuscripts after acceptance/publication.** Please note that each co-author must log in to the submission system to add their own ORCID ID to their account. To add an ORCID ID, edit your account, click the link when prompted, and sign into your ORCID account to validate your ID. You will then be redirected back to the submission system and your ORCID ID will become part of your accepted publication's metadata.
 - [Please create an ORCID ID](#) if you do not already have one or visit our [ORCID homepage](#) to learn more.
- Complete list of authors, with their institutional affiliations.
 - The author information you enter at submission must exactly match what is included on your manuscript and/or title page, including full names, academic affiliations, and corresponding author contact details.
 - **The listed affiliation should be the institution where the research was conducted.** If an author has moved to a new institution since completing the research, the new affiliation can be included in a note at the end of the manuscript.
 - **All listed authors must meet the criteria for authorship (above).**
 - **All persons eligible for authorship must be included at the time of submission.**
 - All authors must have given consent for the manuscript to be submitted in its current form.
- Keywords: During submission, you may be asked to select or enter keywords for your manuscript. These keywords are used to match appropriate reviewers to your manuscript.
- The number of figures, tables, and words in your manuscript.
- Funder information: Name, grant/award number.
- You may be required to enter your declaration of conflicting interest as part of the submission process, in addition to listing it on your manuscript and/or title page. Please have it on hand.

Peer review policy

The following summary describes the peer review process for this journal:

Identity transparency: Double-anonymized

Reviewer interacts with: Editor

Review information published: None

Your manuscript will undergo an initial evaluation. If it does not conform to the requirements laid out in these guidelines, it will be returned to you for amendments prior to peer review. Manuscripts may be desk rejected without peer review at this point if they are out of scope for the journal or otherwise unsuitable.

After passing the initial evaluation, your manuscript will then be peer reviewed. You can log in at any time to check the status of your manuscript. We will notify you when a decision has been reached.

Papers will be sent for anonymous review by at least two reviewers who will either be members of the Editorial Board or others of similar standing in the field. To ensure the peer review process remains anonymous, please do not include any names or contact information in the main body of the text; this information should be included on the title page (see Preparing your manuscript for submission tab). In order to shorten the review process and respond quickly to authors the Editors may triage a submission and come to a decision without sending the paper for external review.

Editorials will not be subject to peer-review.

To ensure the integrity of the peer review process we assign reviewers and cannot accept author recommendations.

All manuscripts are reviewed as rapidly as possible, while maintaining rigor. Reviewers make comments to the author and recommendations to the Associate Editor, who recommends a decision to the Editor in Chief, who then makes the final decision on all manuscripts, including those appearing in a special issue or special collection. The Editor or members of the Editorial Board may occasionally submit their own manuscripts for possible publication in the Journal. In these cases, the peer review process will be managed by alternative members of the Board and the submitting Editor/Board member will have no involvement in the decision-making process.

As a COPE member we engage with multiple forms of post-publication discussion in line with wider guidance from Sage: [Commentaries, Critiques and Responses](#).

You can view our [complaints and appeals policy](#) here.

[Read Sage's complete peer review policy.](#)

Plagiarism

The journal and Sage take issues of copyright infringement, plagiarism or other breaches of best practice in publication very seriously. [Please read Sage's complete policy on plagiarism and the actions we may take.](#)

After acceptance

Contributor's Publishing Agreement

Before publication, we require the author as the rights holder to sign a Journal Contributor's Publishing Agreement. Sage's Journal Contributor's Publishing Agreement is an exclusive license agreement which means that the author retains copyright in the work but grants Sage the sole and exclusive right and license to publish for the full legal term of copyright. Exceptions may exist where an assignment of copyright is required or preferred by a proprietor other than Sage. In this case copyright in the work will be assigned from the author to the society. For more information please visit the [Sage Journal Author Gateway](#).

Production

Your Sage Production Editor will keep you informed as to your article's progress throughout the production process. Proofs will be made available to the corresponding author via our editing portal, Sage Edit, or by email, and should be returned promptly to avoid delaying publication. Authors are reminded to check their proofs carefully to confirm that all author information, including names, affiliations, sequence, and contact details are correct, and that Funding and Conflict of Interest statements, if any, are accurate. **This is the final opportunity to make changes to your manuscript. Further corrections will not be possible after publication. Changes to the author list are not permitted at this stage.**

Publication

OnlineFirst publication: This enables us to publish final articles online immediately, without waiting for assignment to a future issue of the Journal. This usually significantly reduces publication lead time. Visit the [Sage Journals help page for more details](#), including how to cite OnlineFirst articles.

Access to your published article: We provide you with online access to your published article. The online access link is provided to the corresponding author for sharing with their co-authors.

Promoting your article

Publication is not the end of the process. Between us, we can ensure that your article is found, read, downloaded and cited as widely as possible. Many of the most effective tactics are those you can do quickly and easily to your network of contacts and peers. Visit the [Promote Your Article](#) page on the Sage Journal Author Gateway for numerous resources to help you promote your work.

Further resources

The Sage Journal Author Gateway has some general advice on [how to get published](#), plus links to further resources. [Sage Author Services](#) also offers authors a variety of ways to improve and enhance your article including English language editing, plagiarism detection, and video abstract and infographic preparation.

If you have any questions about publishing with Sage, please visit the [Sage Journals Solutions Portal](#).

You can view our [complaints and appeals procedure](#).

Contact us

Any correspondence, queries or additional requests for information on the manuscript submission process should be sent to the *Australasian Psychiatry* editorial office at apy@sagepub.com
