Please read the guidelines in full before submitting your manuscript. Manuscripts not conforming to these guidelines may be returned.

Submit Manuscript 

Manuscript Preparation Guidelines

Prospective authors should review the following guidelines before submitting a manuscript. Authors are strongly encouraged to engage either an outside copy editor or [Sage languageservices](#) for assistance prior to submitting a manuscript.

- Manuscripts must be written in standard American English.
- For the review process, manuscripts may follow the formatting and layout criteria of any recognized style (e.g., AMA, APA, Chicago). However, conditionally accepted manuscripts must be prepared in accordance with the current *Publication Manual of the American Psychological Association*, [Sage Publications](#), and [Cornell Hospitality Quarterly Style Guide](#).
- The journal has four main manuscript types:
 - Original Research Article,
 - Research Note,
 - Managerial Perspectives, and
 - Replication/Validation Articles.

There are no absolute word count requirements, but target lengths for regular articles are 8,000 to 12,000 words and are 3,000 to 5,000 words for research notes and

- managerial perspectives all inclusive.
- Original Research and Research notes may also be pre-registered.
 - Registered Reports submission guidelines are provided at: <https://us.sagepub.com/en-us/registered-reports>
 - All author identification must be removed from the manuscript.
 - A separate title page (designated as "Title Page") with the author details should also be uploaded.
 - The writing style should be direct, vigorous, in the active voice, and employ simple declarative sentences.

There are two types of Registered Reports:

1. Registered Reports – Pre-Data, i.e., before any data have been gathered
2. Registered Reports – Post-Data, i.e., before already existing data have been examined and analysed.

These submissions are reviewed in two stages. In Stage 1, a study proposal is considered for publication prior to data collection and/or analysis. Stage 1 submissions should include a complete Introduction, Methods, and Proposed Analyses. High-quality proposals will be accepted in principle before data collection and/or data analysis commences. Once the study is completed, the author will finish the article including Results and Discussion sections (Stage 2). Publication of the Stage 2 submission is guaranteed as long as the approved Stage 1 protocol is followed and the conclusions are appropriate. Full details can be found [here](#). The Journal's manuscript requirements should be adhered to for the stage 2 submission.

Submission Process

Manuscripts must be submitted electronically at <http://mc.manuscriptcentral.com/cq>. Submitted manuscripts are first read by the editor for general acceptability. If a manuscript is perceived to be a potential fit for the journal, the editor solicits the opinions of two or three reviewers. The review is double anonymize—reviewers do not know the identity of the author and vice versa. After the reviewers submit their recommendations, the editor makes a final decision regarding publication. Every effort is made to complete this first round of reviews within three months. If the editor decides that a manuscript may be suitable, but a definitive decision cannot be made at that time, the author is invited to revise and resubmit the manuscript.

Authors should familiarize themselves with [Sage's Accessibility Guidelines](#) to ensure their manuscripts meet recognized accessibility standards.

Resubmission Process

Manuscripts that are revised and resubmitted are normally handled by the editor without seeking additional input from the reviewers. However, revisions may be sent back to the original set of reviewers, or to a new set of reviewers, on rare occasions when the editor believes that their expertise will help him make a better decision. Regardless of whether or not a revision is sent back out for review, the editor may request an additional revision, which is once again subject to the same revise and resubmit process.

Authors do not have to do everything suggested by the editor and reviewers. However, they must give serious consideration to all editor and reviewer comments and must prepare a detailed, point-by-point response to those comments describing the changes prompted by each comment or explaining why a comment prompted no changes. Revised manuscripts and detailed responses to editor and reviewers must be resubmitted at <http://mc.manuscriptcentral.com/cq>.

Publication Process

After a manuscript has been edited, the author receives a final draft approval and a page proof prior to publication. The *CHQ* reserves the right to suspend publication of a manuscript at any time if it fails to meet required standards. All accepted manuscripts appear on *Cornell Hospitality Quarterly* OnlineFirst prior to print publication.

Orcid

As part of our commitment to ensuring an ethical, transparent and fair peer review process Sage is a supporting member of [ORCID, the Open Researcher and Contributor ID](#). ORCID provides a unique and persistent digital identifier that distinguishes researchers from every other researcher, even those who share the same name, and, through integration in key research workflows such as manuscript and grant submission, supports automated linkages between researchers and their professional activities, ensuring that their work is recognized.

The collection of ORCID iDs from corresponding authors is now part of the submission process of this journal. If you already have an ORCID iD you will be asked to associate that to your submission during the online submission process. We also strongly encourage all co-authors to link their ORCID ID to their accounts in our online peer review platforms. It takes seconds to do: click the link when prompted, sign into your ORCID account and our systems are automatically updated. Your ORCID iD will become part of your accepted publication's metadata, making your work attributable to you and only you. Your ORCID iD is published with your article so that fellow researchers reading your work can link to your ORCID profile and from there link to your other publications.

If you do not already have an ORCID iD please follow this [link](#) to create one or visit our [ORCID homepage](#) to learn more.

Contact Information

Questions concerning the submission process, the status of a submission, or developing a manuscript for the *CHQ* can be directed to the Editor, Gary Thompson at gmt1@cornell.edu.
