

## Ear, Nose & Throat Journal

Impact Factor: 0.8

5-Year Impact Factor: 1.1

### Submission guidelines

#### Submit manuscript

Please read the guidelines in full before submitting your manuscript. Manuscripts not conforming to these guidelines may be returned.

Submit Manuscript 

Sage is committed to upholding the integrity of the academic record. We encourage authors to follow [Sage's Publication Ethics Policies](#) and the [Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals](#) formulated by the International Committee of Medical Journal Editors (ICMJE).

These resources describe ethical conduct and publication requirements for authors and editors to uphold accuracy, transparency, and disclosure – **including authors' appropriate disclosure of AI use as well as a list of prohibited uses of AI.**

Sage Publishing disseminates high-quality research and engaged scholarship globally, and [we are committed to diversity and inclusion in publishing](#). We encourage submissions and peer review from a diverse range of authors and reviewers from across all countries and backgrounds.

Authors should familiarize themselves with [Sage's Accessibility Guidelines](#) to ensure their manuscripts meet recognized accessibility standards.

We encourage authors to refer to the Committee on Publication Ethics' [International Standards for Authors](#).

Journal is a member of the [Committee on Publication Ethics](#).

## Key information

**Access:** Open Access

**APC:** [See article processing charge information below](#)

**Accepts preprints?** No

**Identity transparency:** Single anonymized

## Publishing fees and open access

Ear, Nose & Throat Journal is an open access, peer-reviewed journal. All accepted articles are made freely available online immediately upon publication, are published under a Creative Commons license, and hosted online in perpetuity.

If, after peer review, your manuscript is accepted for publication, a one-time article processing charge (APC) is payable to cover the cost of publishing, paid by the funder, institution, or author. There is no charge for submitting a manuscript.

The article processing charge (APC) is \$3000.

The article processing charge (APC) is payable when a manuscript is accepted after peer review, before it is published. The APC is subject to taxes where applicable. Tax-exempt status can be indicated by providing appropriate registration numbers when payment is requested. [Please see further details on tax-exempt status here.](#)

For general information on open access at Sage please visit the [Open Access page](#).

Authors may be eligible for discounts to their APC via open access agreements that Sage has with participating institutions. Discounts depend on the terms of the agreement, find out if your institution is participating by [visiting Open Access Agreements at Sage](#). Eligibility is determined by the corresponding author's affiliation at acceptance matching an agreement.

Your article may be eligible for a full or partial waiver due to our participation in initiatives to increase accessibility to publication across the international academic community. [More information about discounts and eligibility.](#)

Your article must be within the scope of the journal and be of sufficient quality. If not, it will not be reviewed. Please read the journal's [Aims and Scope](#) to see if your article is appropriate.

The manuscript must be your original work, you must have the rights to the work, and you must have obtained and be able to supply all necessary permissions for the reproduction of any copyright works not owned by you, including figures, illustrations, tables, lengthy quotations, or other material previously published elsewhere.

### Article types

[View our Special Collections currently accepting submissions.](#)

*Ear, Nose & Throat Journal* publishes original articles on the clinical practice and basic science of otolaryngology-head and neck surgery. Authors may submit case reports, reviews, and original research, as well as brief papers suitable for one of the regularly published ENT Clinics, Letters to the Editor, and Perspectives.

**Original Research:** Provides the results of clinical research, including robust case series, case-control studies, and prospective controlled trials. The research should elucidate pathophysiology, presentation, diagnosis, and/or treatment of disease. Components indicated by a checkmark [below](#) should appear in the order they are presented here (ie. title page, structured abstract, manuscript text, acknowledgment, references, figure legends, tables, figures). Word Limit: 2,500 words (exceptions allowed under special circumstances).

**Scholarly Review:** Manuscript that provides a review of previously published literature. Components indicated by a checkmark [below](#) should appear in the order they are presented here (ie. title page, structured abstract, manuscript text, acknowledgment, references, figure legends, tables, figures) Word limit: 3,000 words

**Case Reports:** *ENT Journal* will review case reports that are truly unique and have an exceptional teaching value. Case Reports must include a brief review of the relevant literature, must not exceed 2000 words plus 2 tables or figures, and include a 200-word abstract.

**Surgical Science:** Demonstrates proof of concept related to anatomic dissection, surgical technique, device design, or otolaryngology education and training. Utilizes methods such as cadaver study, computer-aided modeling, media, simulation, or virtual reality. Components indicated by a checkmark [below](#) should appear in the

order they are presented here (ie. title page, structured abstract, manuscript text, acknowledgment, references, figure legends, tables, figures). Word Limit: 2,500 words (exceptions allowed under special circumstances).

**Letters to the Editor:** These should consist of one or two paragraphs totaling no more than 500 words, no abstract, no subheadings and fewer than 8 references (one author, et al., no titles). If an abstract is included, it will automatically be made the first paragraph. Letters should not include figures or research material. Letters to the Editor are not charged an APC. A letter to the editor is a brief communication. They must be written in a professional tone and include references to support all claims if appropriate.

**Perspectives:** Typically presenting an opinion based on practical experience, these manuscripts are similar to opinion articles, but stem from personal experience of the subject discussed and are supported by published evidence where available. Manuscripts should not contain an abstract but may have 1-2 figures and/or tables and less than 10 references. Word limit: 750 words.

**Clinics:** ENT Clinics are departments, not full-length articles; they should be brief “clinical pearls”. Manuscripts should be between 500 and 750 words with at least 1 and no more than 3 high-quality figures. No tables or graphs are accepted. *The Facial Plastic Surgery Clinic can occasionally have more photos if more are needed to illustrate a surgical procedure.* Clinics are charged a reduced APC of \$1,000.

## Format

ENT Clinic articles should briefly describe a case (or, occasionally, a clinical problem and solution) followed by only a brief discussion. They should not contain an abstract, introduction, or subheads but must begin with a short "Significance Statement" of no more than 75 words that summarizes the importance of the topic.

To be complete, Clinic submissions must include:

- A double-spaced manuscript, including a title page with all authors' names (first, last and, if desired, middle initial), degrees, and affiliations, as well as the corresponding author's name, address and e-mail address. MS Word is the correct file format for the text of the manuscript.
- A "Significance Statement" of no more than 75 words must precede the body of the Clinic that summarizes the importance of the topic.
- High-resolution JPG or TIFF files for the figures (minimum 300 dpi, when the image size is at least 3.5 5 inches wide with no white space around the “live” images). Figures cut and pasted into the Word file are unacceptable, as are PowerPoint slides.

- Figure legends should follow the references and be written in complete sentences, present tense.

## Clinical trial registration

The journal conforms to the [ICMJE requirement](#) that clinical trials are registered in a [WHO-approved public trials registry](#) at or before the time of first participant enrollment as a condition of consideration for publication. The trial registry name and URL, and registration number must be included at the end of the abstract.

## Reporting guidelines

Your manuscript **must** follow the relevant [EQUATOR Network reporting guidelines](#), depending on the type of study. The [EQUATOR wizard](#) can help identify the appropriate guideline. You will need to upload the appropriate checklist with your submission.

Other resources can be found at [NLM's Research Reporting Guidelines and Initiatives](#).

If your research involves animals, you will be asked to confirm that you have carefully read and adhered to the [ARRIVE guidelines](#).

## Formatting your manuscript

### Accepted file types

The preferred format for your manuscript is Word. You do not need to follow a template, but please ensure your heading levels are clear, and the sections clearly defined.

The LaTeX files are also accepted. A LaTeX template is available on the [Sage Journal Author Gateway](#).

Your article title, keywords, and abstract all contribute to its position in search engine results, directly affecting the number of people who see your work. For details of what you can do to influence this, visit [How to help readers find your article online](#).

### Title

Your manuscript's title should be concise, descriptive, unambiguous, accurate, and reflect the precise contents of the manuscript. A descriptive title that includes the topic of the manuscript makes an article more findable in the major indexing services.

## Abstract

Please include an unstructured abstract for Case Reports, Case Series, and Clinics. All other article types should include a structured abstract of 200 words between the title and main body of your manuscript that concisely states the purpose of the research, major findings, and conclusions. If your research includes clinical trials, the trial registry name and URL, and registration number must be included at the end of the abstract. Submissions that do not meet this requirement will not be considered.

For clinical trials, the trial registry name and URL, and registration number must be included at the end of the abstract.

This journal includes plain language summaries. For more information on how to prepare a plain language summary, [please see this page](#).

## Plain language summaries

A plain language summary (PLS) is an optional addition that can be submitted for any article type that requires an abstract. The plain language title (approx. 50 words) and plain language summary (approx. 300 words) should describe the article using non-technical language, making it accessible to a wider network of readers. More information and [guidance on how to write a PLS](#) can be found on our Author Gateway.

PLS are published directly below the scientific abstract and are open access making it available online for anyone to read. Peer review of the PLS will be conducted following our [PLS reviewer guidelines](#). When submitting, authors should enter their plain language title and plain language summary into the box provided in the submission system when prompted. The PLS does not need to be provided in the manuscript text or as a separate file. If you are not submitting a PLS with your submission, please enter “N/A” in each box.

If you need professional help writing your Plain Language Summary, [please visit our Author Services portal](#).

## Keywords

Please include a minimum of 4 keywords, listed after the abstract. Keywords should be as specific as possible to the research topic.

## Artwork, figures, and other graphics

For guidance on the preparation of illustrations, pictures, and graphs in electronic format, please read Sage's [artwork guidelines](#).

Figures supplied in color will appear in color online regardless of whether or not these illustrations are reproduced in color in the printed version. If you have requested color reproduction in the print version, we will advise you of the costs on receipt of your accepted article.

**Please ensure that you have obtained any necessary permission** from copyright holders for reproducing any illustrations, tables, figures, or lengthy quotations previously published elsewhere. For further information including guidance on fair dealing for criticism and review, please see the [Frequently Asked Questions page](#) on the Sage Journal Author Gateway.

#### Statements and declarations

Please include a section with the heading 'Statements and Declarations' at the end of your submitted article, after the Acknowledgements section [and Author Contributions section if applicable] including each of the sub-headings listed below. If a declaration is not applicable to your submission, you must still include the heading and state 'Not applicable' underneath. Please note that you may be asked to justify why a declaration was not applicable to your submission by the Editorial Office.

#### Ethical considerations

Please include your ethics approval statements under this heading, even if you have already included ethics approval information in your methods section. If ethical approval was not required, you need to explicitly state this. You can find information on what to say in your ethical statements as well as example statements on our [Publication ethics and research integrity policies page](#).

All papers reporting studies involving human participants, human data or human tissue must state that the relevant Ethics Committee or Institutional Review Board approved the study, or waived the requirement for approval, providing the full name and institution of the review committee in addition to the approval number. If applicable, please also include this information in the Methods section of your manuscript.

#### Consent to participate

Please include any participant consent information under this heading and state whether informed consent to participate was written or verbal. If the requirement for informed consent to participate has been waived by the relevant Ethics Committee or Institutional Review Board (i.e. where it has been deemed that consent would be impossible or impracticable to obtain), please state this. If this is not applicable to your manuscript, please state 'Not applicable' in this section. More information and

example statements can be found on our [Publication ethics and research integrity policies page](#).

#### Consent for publication

Submissions containing any data from an individual person (including individual details, images or videos) must include a statement confirming that informed consent for publication was provided by the participant(s) or a legally authorized representative. Non-essential identifying details should be omitted. Please do not submit the participant's actual written informed consent with your article, as this in itself breaches the patient's confidentiality. The Journal requests that you confirm to us, in writing, that you have obtained written informed consent to publish but the written consent itself should be held by the authors/investigators themselves, for example in a patient's hospital record. The confirmatory letter may be uploaded with your submission as a separate file in addition to the statement confirming that consent to publish was obtained within the manuscript text. If this is not applicable to your manuscript, please state 'Not applicable' in this section.

#### Declaration of conflicting interest

The journal requires a declaration of conflicting interests from all authors so that a statement can be included in your article. For guidance on conflict of interest statements, see our [policy on conflicting interest declarations](#) and the [ICMJE recommendations](#).

If no conflict exists, your statement should read: 'The author(s) declared no potential conflicts of interest with respect to the research, authorship, and/or publication of this article'.

#### Funding statement

All articles need to include a funding statement, under a separate heading, **even if you did not receive funding**. You'll find guidance and examples on our [Funding](#) page.

#### Data availability

The Journal is committed to facilitating openness, transparency and reproducibility of research, and has the following research data sharing policy. For more information, including FAQs please [visit the Sage Research Data policy pages](#).

Subject to appropriate ethical and legal considerations, authors are encouraged to:

- Share your research data in a relevant public data repository

- Include a data availability statement linking to your data. If it is not possible to share your data, use the statement to confirm why it cannot be shared.
- Cite this data in your research

### Reference style and citations

The journal follows the AMA Manual of Style. [View the AMA Manual of Style](#) to ensure your manuscript conforms.

Every in-text citation must have a corresponding citation in the reference list and vice versa. Corresponding citations must have identical spelling and year.

Authors should update any references to preprints when a peer reviewed version is made available, to cite the published research. Citations to preprints are otherwise discouraged.

### Acknowledgments

If you are including an Acknowledgements section, this will be published at the end of your article. The Acknowledgments section should include all contributors who do not meet the criteria for authorship. Per [ICMJE recommendations](#), it is best practice to obtain consent from non-author contributors who you are acknowledging in your manuscript.

**Writing assistance and third party submissions:** if you have received any writing or editing assistance from a third-party, for example a specialist communications company, this must be clearly stated in the Acknowledgements section and in the covering letter. Please see the [Sage Author Gateway](#) for what information to include in your Acknowledgements section. If your submission is being made on your behalf by someone who is not listed as an author, for example the third-party who provided writing/editing assistance, you must state this in the Acknowledgements and also in your covering letter. **Please note that the journal editor reserves the right to not consider submissions made by a third party rather than by the author/s themselves.**

### Supplemental material

This Journal can host additional materials online (e.g. datasets, podcasts, videos, images etc.) alongside the full text of the article. Your supplemental material must be one of our accepted file types. For that list and more information please refer to our [guidelines on submitting supplemental files](#).

Authors seeking assistance with English language editing, translation, or figure and manuscript formatting to fit the journal's specifications should consider using Sage Author Services. Visit [Sage Author Services](#) for further information.

## Submitting your manuscript

As part of the submission process you will need to confirm that this is your original work, that you have the rights in the work, that this is for first publication in this Journal, that it is not being considered for/has not already been published elsewhere, and that you have obtained and can supply all necessary permissions for the reproduction of any copyright works not owned by you.

Please see our [guidelines on prior publication](#).

### Preprints

The journal does not accept submissions of manuscripts that have been posted on preprint servers.

### Submission site

[Submit your manuscript online via Sage Track](#).

**IMPORTANT:** Please check whether you already have an account in Sage Track before trying to create a new one. If you have reviewed or authored for the journal in the past year it is likely that you will have had an account created. For further guidance on submitting your manuscript online please visit [ScholarOne Online Help](#).

Manuscripts should only be submitted with the consent of all contributing authors. The individual responsible for submitting the manuscript should carefully check that all those whose work contributed to the manuscript are listed as authors.

**Ensure you upload all relevant manuscript files, including any additional supplemental files (including reporting guidelines where relevant).**

### Authorship

Please [view our authorship policies](#), which includes information on criteria for authorship, who should be the corresponding author and more.

Please note that AI chatbots, for example ChatGPT, should not be listed as authors. For more information see the [policy on Use of ChatGPT and generative AI tools](#).

## Files

- **Cover letter.** To help the Editor in their preliminary evaluation, please indicate why you think the manuscript suitable for publication. If your manuscript should be considered for fast-track publication, please explain why.
- **Title Page** with all required identifying information as laid out in Preparing your manuscript for submission (above). This **will not** be sent to the peer reviewers.
- Your **manuscript**, properly formatted according to all stipulations above, and within the scope of the journal.
- **Figures and images.**
  - All figures must be numbered consecutively in the order in which they appear in the text – they will appear in the published article in the order they are numbered.
  - Figure resolution is 300dpi. [More information on figure/image preparation can be found here.](#)
- **Supplemental material.** This journal can host additional materials online (e.g. datasets, podcasts, videos, images, etc) alongside the full-text of the article. Your supplemental material must be one of our accepted file types. For that list and more information please refer to our [guidelines on submitting supplemental files](#).

## Other information required for submission

- ORCID ID of the submitting author.
  - It is strongly encouraged that all co-authors ensure their ORCID IDs are linked to their accounts in the submission system prior to article acceptance, as this is the only way to have their ORCID ID present on the published article. **ORCID IDs cannot be added to manuscripts after acceptance/publication.** Please note that each co-author must log in to the submission system to add their own ORCID ID to their account. To add an ORCID ID, edit your account, click the link when prompted, and sign into your ORCID account to validate your ID. You will then be redirected back to the submission system and your ORCID ID will become part of your accepted publication's metadata.
  - [Please create an ORCID ID](#) if you do not already have one or visit our [ORCID homepage](#) to learn more.
- Complete list of authors, with their institutional affiliations.
  - The author information you enter at submission must exactly match what is included on your manuscript and/or title page, including full names, academic affiliations, and corresponding author contact details.
  - **The listed affiliation should be the institution where the research was conducted.** If an author has moved to a new institution since completing the research, the new affiliation can be included in a note at the end of the manuscript.
  - **All listed authors must meet the criteria for authorship (above).**
  - **All persons eligible for authorship must be included at the time of submission.**
  - All authors must have given consent for the manuscript to be submitted in its current form.

- Keywords: During submission, you may be asked to select or enter keywords for your manuscript. These keywords are used to match appropriate reviewers to your manuscript.
- The number of figures, tables, and words in your manuscript.
- Funder information: Name, grant/award number.
- You may be required to enter your declaration of conflicting interest as part of the submission process, in addition to listing it on your manuscript and/or title page. Please have it on hand.

## Peer review policy

The following summary describes the peer review process for this journal:

Identity transparency: Single-anonymized

Reviewer interacts with: Editor

Review information published: None

Your manuscript will undergo an initial evaluation. If it does not conform to the requirements laid out in these guidelines, it will be returned to you for amendments prior to peer review. Manuscripts may be desk rejected without peer review at this point if they are out of scope for the journal or otherwise unsuitable.

After passing the initial evaluation, your manuscript will then be peer reviewed. You can log in at any time to check the status of your manuscript. We will notify you when a decision has been reached.

*Ear, Nose & Throat Journal* operates a conventional single-anonymized reviewing policy in which the reviewer's name is always concealed from the submitting author. Two independent reviews are required for a manuscript to reach a Revise or Accept decision, with the exception of the following manuscript types: Editorials and Letters to the Editor.

To ensure the integrity of the peer review process we assign reviewers and cannot accept author recommendations.

All manuscripts are reviewed as rapidly as possible, while maintaining rigor. Reviewers and Associate Editors make comments to the author and recommendations to the Editor who then makes the final decision on all manuscripts, including those appearing in a special issue or special collection. The Editor or members of the Editorial Board may occasionally submit their own manuscripts for possible publication in the Journal. In these cases, the peer review process will be managed by alternative members of the Board and the submitting Editor/Board member will have no involvement in the decision-making process.

[Read Sage's complete peer review policy.](#)

## Plagiarism

The journal and Sage take issues of copyright infringement, plagiarism or other breaches of best practice in publication very seriously. [Please read Sage's complete policy on plagiarism and the actions we may take.](#)

## After acceptance

After acceptance you will receive instructions via email inviting you to complete the Open Access process. This will include signing the appropriate Creative Commons license and, where applicable, paying the Article Processing Charge (APC) or assigning a bill payer. Once the APC has been processed, your article will be prepared for publication and can appear online within an average of 30 days. Please note that, where an APC is applicable, production work cannot be completed on your manuscript until payment has been received.

## Contributor's Publishing Agreement

Before publication we require the author as the rights holder to sign a Journal Contributor's Publishing Agreement. The journal publishes manuscripts under [Creative Commons licenses](#). The standard license for the journal is Creative Commons by Attribution Non-Commercial (CC BY-NC), which allows others to re-use the work without permission as long as the work is properly referenced and the use is non-commercial. For more information, you are advised to visit [Sage's OA licenses page](#). Alternative license arrangements are available at the author's request (e.g. to meet particular funder mandates).

## Production

Your Sage Production Editor will keep you informed as to your article's progress throughout the production process. Proofs will be made available to the corresponding author via our editing portal, Sage Edit, or by email, and should be returned promptly to avoid delaying publication. Authors are reminded to check their proofs carefully to confirm that all author information, including names, affiliations, sequence, and contact details are correct, and that Funding and Conflict of Interest statements, if any, are accurate. **This is the final opportunity to make changes to your manuscript. Further corrections will not be possible after publication. Changes to the author list are not permitted at this stage.**

**OnlineFirst publication:** This enables us to publish final articles online immediately, without waiting for assignment to a future issue of the Journal. This usually significantly reduces publication lead time. Visit the [Sage Journals help page for more details](#), including how to cite OnlineFirst articles.

### Promoting your article

Publication is not the end of the process. Between us, we can ensure that your article is found, read, downloaded and cited as widely as possible. Many of the most effective tactics are those you can do quickly and easily to your network of contacts and peers. Visit the [Promote Your Article](#) page on the Sage Journal Author Gateway for numerous resources to help you promote your work.

### Further resources

The Sage Journal Author Gateway has some general advice on [how to get published](#), plus links to further resources. [Sage Author Services](#) also offers authors a variety of ways to improve and enhance your article including English language editing, plagiarism detection, and video abstract and infographic preparation.

If you have any questions about publishing with Sage, please visit the [Sage Journals Solutions Portal](#).

You can view our [complaints and appeals procedure](#).
