PUBLICATION DECISION:

Selection of articles for publication is made by the Editor who relies primarily on the recommendations of the Associate Editors, members of the Editorial Review Board and other qualified reviewers using a double 'anonymize' review process. Reviewers' comments are made available to the authors. The recommendation letter of the editor responsible for each manuscript and all reviews received are made available to the reviewers.

DESK REJECTION:

Submissions considered inappropriate for the journal's mission or insufficiently developed will be returned to the authors without going through the formal review process. All decisions are final.

To increase their chances of going through the review process and publication, authors are strongly recommended to seek peer review prior to submitting their manuscripts to *FBR*. The editorial by Justin Craig on '[Desk Rejection](#)' (*FBR* 2010, December issue, 23(4): 306-309) shares in some detail the process used by *FBR* for desk rejections and strategies authors can use to avoid it.

COPYRIGHT FORM:

Before publication, we require the author as the rights holder to sign a Journal Contributor's Publishing Agreement. Sage's Journal Contributor's Publishing Agreement is an exclusive

license agreement which means that the author retains copyright in the work but grants Sage the sole and exclusive right and license to publish for the full legal term of copyright. Exceptions may exist where an assignment of copyright is required or preferred by a proprietor other than Sage. In this case copyright in the work will be assigned from the author to the society. For more information please visit the [Sage Journal Author Gateway](#).

COPY EDITING:

FBR editors are responsible for reviewing the copyediting for each issue and will only contact authors if clarification is needed. Copyedited manuscripts will not be returned to authors.

Authors should familiarize themselves with [Sage's Accessibility Guidelines](#) to ensure their manuscripts meet recognized accessibility standards.

POLICY ON PUBLISHING OF ARTICLE/S BY FBR'S EDITORS DURING THEIR TERM AS EDITOR:

Since 2009, the following policy has been in place:

* The Editor-in-Chief will not publish any article during his/her term. Exceptions are editorials, annual reviews, and introduction to special issues co-edited by this individual.

* All other members of the editorial team may submit their articles for publication consideration in *FBR* during their term as associate / assistant editors. The submitted papers will be subjected to the usual anonymize peer review process and outcome determined by the reviewers / action editors reactions.

For additional information on submissions to *FBR*, please email the *FBR* team at fbr@sagepub.com

ORCID:

As part of our commitment to ensuring an ethical, transparent and fair peer review process Sage is a supporting member of [ORCID, the Open Researcher and Contributor ID](#). ORCID provides a unique and persistent digital identifier that distinguishes researchers from every other researcher, even those who share the same name, and, through integration in key research workflows such as manuscript and grant submission, supports automated linkages between researchers and their professional activities, ensuring that their work is recognized.

The collection of ORCID iDs from corresponding authors is now part of the submission process of this journal. If you already have an ORCID iD you will be asked to associate that to your submission during the online submission process. We also strongly encourage all co-authors to link their ORCID ID to their accounts in our online peer review platforms. It takes seconds to do: click the link when prompted, sign into your ORCID account and our systems are automatically updated. Your ORCID iD will become part of your accepted publication's metadata, making your work attributable to you and only you. Your ORCID iD is published with your article so that fellow researchers reading your work can link to your ORCID profile and from there link to your other publications.

If you do not already have an ORCID iD please follow this [link](#) to create one or visit our [ORCID homepage](#) to learn more.

Sage Choice

If you or your funder wish your article to be freely available online to nonsubscribers immediately upon publication (gold open access), you can opt for it to be included in Sage Choice, subject to payment of a publication fee. The manuscript submission and peer review procedure is unchanged. On acceptance of your article, you will be asked to let Sage know directly if you are choosing Sage Choice. To check journal eligibility and the publication fee, please visit [Sage Choice](#). For more information on open access options and compliance at Sage, including self author archiving deposits (green open access) visit [Sage Publishing Policies](#) on our Journal Author Gateway.
