Submission guidelines

Submit manuscript

Please read the guidelines in full before submitting your manuscript.
Manuscripts not conforming to these guidelines may be returned.

Submit Manuscript

Sage is committed to upholding the integrity of the academic record. We encourage authors to follow Sage's Publication Ethics Policies and the Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals formulated by the International Committee of Medical Journal Editors (ICMJE).

These resources describe ethical conduct and publication requirements for authors and editors to uphold accuracy, transparency, and disclosure – **including authors' appropriate disclosure of AI use as well as a list of prohibited uses of AI**.

Sage Publishing disseminates high-quality research and engaged scholarship globally, and we are committed to diversity and inclusion in publishing. We encourage submissions and peer review from a diverse range of authors and reviewers from across all countries and backgrounds.

Authors should familiarize themselves with Sage's Accessibility Guidelines to ensure their manuscripts meet recognized accessibility standards.

encourage authors to refer to the Committee on Publication Ethics' International dards for Authors.

This Journal is a member of the Committee on Publication Ethics.

Key information

Access: Open Access
APC: See article processing charge information below
Accepts preprints? Yes
Identity transparency: Double anonymized

Please note that this journal is online-only and does not offer print copies.

Publishing fees and open access

Sage Open is an open access, peer-reviewed journal. All accepted articles are made freely available online immediately upon publication, are published under a Creative Commons license, and hosted online in perpetuity.

If, after peer review, your manuscript is accepted for publication, a one-time article processing charge (APC) is payable to cover the cost of publishing, paid by the funder, institution, or author. There is no charge for submitting a manuscript.

The article processing charge (APC) is $2400.

The article processing charge (APC) is payable when a manuscript is accepted after peer review, before it is published. The APC is subject to taxes where applicable. Tax-exempt status can be indicated by providing appropriate registration numbers when payment is requested. Please see further details on tax-exempt status here.

The APC is based on the date of original peer review submission regardless of the manuscript's date of acceptance.

For general information on open access at Sage please visit the Open Access page.

Authors may be eligible for discounts to their APC via open access agreements that Sage has with participating institutions. Discounts depend on the terms of the agreement, find out if your institution is participating by visiting Open Access

Agreements at Sage. Eligibility is determined by the corresponding author's affiliation at acceptance matching an agreement.

Your article may be eligible for a full or partial waiver due to our participation in initiatives to increase accessibility to publication across the international academic community. More information about discounts and eligibility.

Preparing your manuscript for submission

Your article must be within the scope of the journal and be of sufficient quality. If not, it will not be reviewed. Please read the journal's Aims and Scope to see if your article is appropriate.

The manuscript must be your original work, you must have the rights to the work, and you must have obtained and be able to supply all necessary permissions for the reproduction of any copyright works not owned by you, including figures, illustrations, tables, lengthy quotations, or other material previously published elsewhere.

Article types

View our topical sections currently accepting submissions

View our Special Collections currently accepting submissions.

Sage Open welcomes the submission of original research articles and literature reviews.

Please review our Sage Open Guide for Authors for information on what types of research we publish.

Sage Open has a word limit of 10,000 words. This excludes the abstract and references but includes any tables that are part of the main document and are meant to be included in peer review. Our stronger submissions tend to have more than 2,000 words.

Reporting Guidelines

Your manuscript should follow APA Journal Article Reporting Standards (JARS) for each type of method.

Other resources can be found at NLM's Research Reporting Guidelines and Initiatives.

Formatting your manuscript

Accepted file types

The preferred format for your manuscript is Word. You do not need to follow a template, but please ensure your heading levels are clear, and the sections clearly defined.

The LaTeX files are also accepted. A LaTeX template is available on the Sage Journal Author Gateway.

Your article title, keywords, and abstract all contribute to its position in search engine results, directly affecting the number of people who see your work. For details of what you can do to influence this, visit How to help readers find your article online.

Title

Your manuscript's title should be concise, descriptive, unambiguous, accurate, and reflect the precise contents of the manuscript. A descriptive title that includes the topic of the manuscript makes an article more findable in the major indexing services.

Abstract

Please include an abstract of 250 words between the title and main body of your manuscript that concisely states the purpose of the research, major findings, and conclusions. Be sure to write your titles and abstracts with a global, interdisciplinary audience in mind. We do not have clinical trials.

This journal includes plain language summaries. For more information on how to prepare a plain language summary, please see this page.

Plain language summaries

A plain language summary (PLS) is an optional addition that can be submitted for any article type that requires an abstract. The plain language title (approx. 50 words) and plain language summary (approx. 300 words) should describe the article using non-technical language, making it accessible to a wider network of readers. More information and guidance on how to write a PLS can be found on our Author Gateway.

PLS are published directly below the scientific abstract and are open access making it available online for anyone to read. Peer review of the PLS will be conducted following our PLS reviewer guidelines. When submitting, authors should enter their plain language title and plain language summary into the box provided in the submission

system when prompted. The PLS does not need to be provided in the manuscript text or as a separate file. If you are not submitting a PLS with your submission, please enter “N/A” in each box.

If you need professional help writing your Plain Language Summary, please visit our Author Services portal.

Keywords

Please include a minimum of 4-5 keywords, listed after the abstract. Keywords should be as specific as possible to the research topic.

Artwork, figures, and other graphics

For guidance on the preparation of illustrations, pictures, and graphs in electronic format, please read Sage’s artwork guidelines.

Figures supplied in color will appear in color online.

Please ensure that you have obtained any necessary permission from copyright holders for reproducing any illustrations, tables, figures, or lengthy quotations previously published elsewhere. For further information including guidance on fair dealing for criticism and review, please see the Frequently Asked Questions page on the Sage Journal Author Gateway.

Title page

To ensure fair and anonymous peer review, your manuscript must be fully anonymized. Please ensure any identifying information is removed from the main manuscript document and included on the Title Page instead. Do not include any author names in the manuscript file name and remove names from headers and footers. This version of the manuscript **will** be sent to the peer reviewers. The Title Page **will not** be sent to peer reviewers. See the Sage Journal Author Gateway for detailed guidance on making an anonymous submission.

The Title Page should include:

- Article title
- The full list of authors including names and affiliations of each
    - **The listed affiliation should be the institution where the research was conducted**. If an author has moved to a new institution since completing the research, the new affiliation can be included in a note at the end of the manuscript – please indicate this on the title page.
    - **All persons eligible for authorship must be included at the time of submission (please see the authorship section for more information)**.

- Contact information for the corresponding author: name, institutional address, phone, email
- Acknowledgments section
- Declaration of conflicting interest
- Funding statement
- Ethical approval and informed consent statements
- Data availability statement
- Any other identifying information related to the authors and/or their institutions, funders, approval committees, etc, that might compromise anonymity.

Acknowledgments

If you are including an Acknowledgements section, this will be published at the end of your article. The Acknowledgments section should include all contributors who do not meet the criteria for authorship. Per ICMJE recommendations, it is best practice to obtain consent from non-author contributors who you are acknowledging in your manuscript.

Writing assistance and third party submissions: if you have received any writing or editing assistance from a third-party, for example a specialist communications company, this must be clearly stated in the Acknowledgements section and in the covering letter. Please see the Sage Author Gateway for what information to include in your Acknowledgements section. If your submission is being made on your behalf by someone who is not listed as an author, for example the third-party who provided writing/editing assistance, you must state this in the Acknowledgements and also in your covering letter. **Please note that the journal editor reserves the right to not consider submissions made by a third party rather than by the author/s themselves.**

Author contributions

You will be asked to list the contribution of each author as part of the submission process. Please include the Author Contributions heading within your submission after the Acknowledgements section. The information you give on submission will then show under the Author Contributions heading later at the proofing stage.

Statements and declarations

To ensure proper anonymization, please include a section with the heading 'Statements and Declarations' on your title page, after the Acknowledgements section [and Author Contributions section if applicable] including each of the sub-headings listed below. If a declaration is not applicable to your submission, you must still include the heading and state 'Not applicable' underneath. Please note that you may

be asked to justify why a declaration was not applicable to your submission by the Editorial Office. This information will be added to the end of your published paper.

Ethical considerations

Please include your ethics approval statements under this heading, even if you have already included ethics approval information in your methods section. If ethical approval was not required, you need to explicitly state this.

All papers reporting studies involving human participants, human data or human tissue must state that the relevant Ethics Committee or Institutional Review Board approved the study, or waived the requirement for approval, providing the full name and institution of the review committee in addition to the approval number. If applicable, please also include this information in the Methods section of your manuscript.

Consent to participate

Please include any participant consent information under this heading and state whether informed consent to participate was written or verbal. If the requirement for informed consent to participate has been waived by the relevant Ethics Committee or Institutional Review Board (i.e. where it has been deemed that consent would be impossible or impracticable to obtain), please state this. If this is not applicable to your manuscript, please state ‘Not applicable’ in this section.

Consent for publication

Submissions containing any data from an individual person (including individual details, images or videos) must include a statement confirming that informed consent for publication was provided by the participant(s) or a legally authorized representative. Non-essential identifying details should be omitted. Please do not submit the participant’s actual written informed consent with your article, as this in itself breaches the patient’s confidentiality. The Journal requests that you confirm to us, in writing, that you have obtained written informed consent to publish but the written consent itself should be held by the authors/investigators themselves, for example in a patient’s hospital record. The confirmatory letter may be uploaded with your submission as a separate file in addition to the statement confirming that consent to publish was obtained within the manuscript text. If this is not applicable to your manuscript, please state ‘Not applicable’ in this section.

Declaration of conflicting interest

The journal requires a declaration of conflicting interests from all authors so that a statement can be included in your article. For guidance on conflict of interest statements, see our policy on conflicting interest declarations and the ICMJE recommendations.

If no conflict exists, your statement should read: 'The author(s) declared no potential conflicts of interest with respect to the research, authorship, and/or publication of this article'.

Funding statement

All articles need to include a funding statement, under a separate heading, **even if you did not receive funding**. You'll find guidance and examples on our Funding page.

Data availability

The Journal is committed to facilitating openness, transparency and reproducibility of research, and has the following research data sharing policy. For more information, including FAQs please visit the Sage Research Data policy pages.

Subject to appropriate ethical and legal considerations, authors are encouraged to:

- Share your research data in a relevant public data repository
- Include a data availability statement linking to your data. If it is not possible to share your data, use the statement to confirm why it cannot be shared.
- Cite this data in your research

Reference style and citations

The journal follows the APA reference style. View the APA guidelines to ensure your manuscript conforms.

Every in-text citation must have a corresponding citation in the reference list and vice versa. Corresponding citations must have identical spelling and year.

Authors should update any references to preprints when a peer reviewed version is made available, to cite the published research. Citations to preprints are otherwise discouraged.

EndNote

If you use EndNote to manage references, you can download the APA EndNote output style.

Supplemental material

This Journal can host additional materials online (e.g. datasets, podcasts, videos, images etc.) alongside the full text of the article. Your supplemental material must be one of our accepted file types. For that list and more information please refer to our guidelines on submitting supplemental files.

English language editing services

Authors seeking assistance with English language editing, translation, or figure and manuscript formatting to fit the journal's specifications should consider using Sage Author Services. Visit Sage Author Services for further information.

Submitting your manuscript

As part of the submission process you will need to confirm that this is your original work, that you have the rights in the work, that this is for first publication in this Journal, that it is not being considered for/has not already been published elsewhere, and that you have obtained and can supply all necessary permissions for the reproduction of any copyright works not owned by you.

***Sage Open* will only consider up to five manuscripts submitted by the same author or author group at one time or within two years.** Only manuscripts of sufficient quality that meet the aims and scope of Sage Open will be reviewed.

Sage Open will **reject any manuscripts submitted by a third party** rather than by the authors themselves or where any systematic manipulation of the peer review or publication process has been suspected. The journal reserves the right to enforce this policy at any point of the peer review or publication process.

For additional guidance, please refer to our Sage Open Author Guidelines.

Please see our guidelines on prior publication and note that the journal may accept submissions of manuscripts that have been posted on preprint servers.

Preprints

The journal will consider submissions of manuscripts that have been posted on preprint servers.

Please enter the preprint DOI in the designated field when submitting your manuscript. We advise that you inform the Journal Editorial office about your posted preprint at submission.

Note that you should **not** post an updated version of your manuscript on a preprint server while it is being peer reviewed.

Learn more about our preprint policy.

Submission site

Submit your manuscript online via Sage Track.

IMPORTANT: Please check whether you already have an account in Sage Track before trying to create a new one. If you have reviewed or authored for the journal in the past year it is likely that you will have had an account created. For further guidance on submitting your manuscript online please visit ScholarOne Online Help.

Manuscripts should only be submitted with the consent of all contributing authors. The individual responsible for submitting the manuscript should carefully check that all those whose work contributed to the manuscript are listed as authors.

Ensure you upload all relevant manuscript files, including any additional supplemental files (including reporting guidelines where relevant).

Authorship

Please view our authorship policies, which includes information on criteria for authorship, who should be the corresponding author and more.

Please note that AI chatbots, for example ChatGPT, should not be listed as authors. For more information see the policy on Use of ChatGPT and generative AI tools.

Files

- **Title Page** with all required identifying information as laid out in Preparing your manuscript for submission (above). This **will not** be sent to the peer reviewers.
- Your **manuscript**, properly formatted and anonymized according to all stipulations above, and within the scope of the journal. Any information that compromises the anonymity of the author(s) should be removed or anonymized and included on the Title Page instead. See above for more information on anonymization. This version **will** be sent to the peer reviewers.
- **Figures and images.**
    - All figures must be numbered consecutively in the order in which they appear in the text – they will appear in the published article in the order they are numbered.

    - Figure resolution is 300dpi. More information on figure/image preparation can be found here.
- **Supplemental material.** This journal can host additional materials online (e.g. datasets, podcasts, videos, images, etc) alongside the full-text of the article. Your supplemental material must be one of our accepted file types. For that list and more information please refer to our guidelines on submitting supplemental files.

Other information required for submission

- ORCID ID of the submitting author.
    - It is strongly encouraged that all co-authors ensure their ORCID IDs are linked to their accounts in the submission system prior to article acceptance, as this is the only way to have their ORCID ID present on the published article. **ORCID IDs cannot be added to manuscripts after acceptance/publication.** Please note that each co-author must log in to the submission system to add their own ORCID ID to their account. To add an ORCID ID, edit your account, click the link when prompted, and sign into your ORCID account to validate your ID. You will then be redirected back to the submission system and your ORCID ID will become part of your accepted publication's metadata.
    - Please create an ORCID ID if you do not already have one or visit our ORCID homepage to learn more.
- Complete list of authors, with their institutional affiliations.
    - The author information you enter at submission must exactly match what is included on your manuscript and/or title page, including full names, academic affiliations, and corresponding author contact details.
    - **The listed affiliation should be the institution where the research was conducted.** If an author has moved to a new institution since completing the research, the new affiliation can be included in a note at the end of the manuscript.
    - **All listed authors must meet the criteria for authorship (above).**
    - **All persons eligible for authorship must be included at the time of submission.**
    - All authors must have given consent for the manuscript to be submitted in its current form.
- Keywords: During submission, you may be asked to select or enter keywords for your manuscript. These keywords are used to match appropriate reviewers to your manuscript.
- The number of figures, tables, and words in your manuscript.
- Funder information: Name, grant/award number.
- You may be required to enter your declaration of conflicting interest as part of the submission process, in addition to listing it on your manuscript and/or title page. Please have it on hand.
- If you have posted your manuscript to a preprint server, you will be asked to supply the DOI (this does not prohibit submission, but no changes should be made to the preprint version while your manuscript is under evaluation in this journal). Please see our guidelines on prior publication. If the article is accepted for publication, the author may re-use their work according to the journal's author archiving policy. If your manuscript is accepted, you must include a link in your preprint to the final version of your published article.

Peer review policy

The following summary describes the peer review process for this journal:
Identity transparency: Double-anonymized
Reviewer interacts with: Sage Open Editorial Office
Review information published: None

Your manuscript will undergo an initial evaluation. If it does not conform to the requirements laid out in these guidelines, it will be returned to you for amendments prior to peer review. Manuscripts may be desk rejected without peer review at this point if they are out of scope for the journal or otherwise unsuitable.

After passing the initial evaluation, your manuscript will then be peer reviewed. You can log in at any time to check the status of your manuscript. We will notify you when a decision has been reached.

The approach of *Sage Open's* peer review process differs from that of traditional journals. Our goal is to publish ***research done well***. This means we look for research that contributes to the academic record in a way that allows other scholars to connect that research to their own work and build on it. We care more about the *clarity and quality* of the contribution an article makes than we do the size of that contribution. *Sage Open* evaluates manuscripts based on how the research was conducted and reported.

Please see the Sage Open Guide for Authors for more information.

Sage Open adheres to a rigorous double-anonymized reviewing policy in which the identity of both the reviewer and author are always concealed from both parties. Two independent reviews are required for a manuscript to reach a Revise or Accept decision.

To ensure the integrity of the peer review process we assign reviewers and cannot accept author recommendations.

All manuscripts are reviewed as rapidly as possible, while maintaining rigor. Reviewers make comments to the author and recommendations to the Sage Open Editorial Office who then makes the final decision on all manuscripts, including those appearing in a special issue or special collection. The Editor or members of the Editorial Board may occasionally submit their own manuscripts for possible publication in the Journal. In these cases, the peer review process will be managed by alternative members of the Board and the submitting Editor/Board member will have no involvement in the decision-making process.

Read Sage's complete peer review policy.

Plagiarism

The journal and Sage take issues of copyright infringement, plagiarism or other breaches of best practice in publication very seriously. Please read Sage's complete policy on plagiarism and the actions we may take.

After acceptance

After acceptance you will receive instructions via email inviting you to complete the Open Access process. This will include signing the appropriate Creative Commons license and, where applicable, paying the Article Processing Charge (APC) or assigning a bill payer. Once the APC has been processed, your article will be prepared for publication and can appear online within an average of 30 days. Please note that, where an APC is applicable, production work cannot be completed on your manuscript until payment has been received.

Contributor's Publishing Agreement

Before publication we require the author as the rights holder to sign a Journal Contributor's Publishing Agreement. The journal publishes manuscripts under Creative Commons licenses.The standard license for the journal is Creative Commons by Attribution (CC BY-NC), which allows others to re-use the work without permission as long as the work is properly referenced and the use is non-commercial. For more information, you are advised to visit Sage's OA licenses page.

Preprints

If your manuscript was posted on a preprint server prior to acceptance, you must include a link in your preprint to the final published version of your published article.

Production

Your Sage Production Editor will keep you informed as to your article's progress throughout the production process. Proofs will be made available to the corresponding author via our editing portal, Sage Edit, or by email, and should be returned promptly to avoid delaying publication. Authors are reminded to check their proofs carefully to confirm that all author information, including names, affiliations, sequence, and contact details are correct, and that Funding and Conflict of Interest

statements, if any, are accurate. **This is the final opportunity to make changes to your manuscript. Further corrections will not be possible after publication. Changes to the author list are not permitted at this stage.**

Publication

One of the many benefits of publishing your research in an open access journal is the speed to publication. With no page count constraints, your article will be published online in a fully citable form with a DOI number as soon as it has completed the production process. At this time it will be completely free to view and download for all.

OnlineFirst publication: This enables us to publish final articles online immediately, without waiting for assignment to a future issue of the Journal. This usually significantly reduces publication lead time. Visit the Sage Journals help page for more details, including how to cite OnlineFirst articles.

Promoting your article

Publication is not the end of the process. Between us, we can ensure that your article is found, read, downloaded and cited as widely as possible. Many of the most effective tactics are those you can do quickly and easily to your network of contacts and peers. Visit the Promote Your Article page on the Sage Journal Author Gateway for numerous resources to help you promote your work.

Further resources

The Sage Journal Author Gateway has some general advice on how to get published, plus links to further resources. Sage Author Services also offers authors a variety of ways to improve and enhance your article including English language editing, plagiarism detection, and video abstract and infographic preparation.

If you have any questions about publishing with Sage, please visit the Sage Journals Solutions Portal.

You can view our complaints and appeals procedure.
