SAGE Digital Products 2017

SAGE is committed to partnering with libraries to support the dissemination of knowledge and educate a global community. Our growing selection of library products includes archives, data, case studies, and video. In addition to producing library products, we join with the librarian community in research on the behavior patterns of library patrons, best practices for cataloging and using metadata, and finding effective means to promote resources to end users. We are pleased to make available on our website tools to support you in the use and promotion of our products.

Using SAGE Video

A professor is developing a new course in the social sciences, and is looking to enhance student learning outcomes while keeping the course practical and relatable. She uses SAGE Video to:

- Assign engaging course work by embedding documentaries in her course management system
- Enliven lectures by streaming case study videos in class
- Provide alternative, reliable sources to augment students’ research papers and dissertations

SAGE Research Methods Video
see page 24 to learn more
SAGE Research Methods is the comprehensive methods library with more than 1,000 books, reference works, and journal articles; 1,100 case studies of real research projects; 120 teaching datasets to help students master data analysis through hands-on practice; and a collection of 484 videos that bring research methods, statistics, and evaluation to life. The resources cover every aspect of research skills training and support students and researchers through every step of the research process.
What are research methods, and why are they important?

Research methods are the tools used to conduct research. Learning research skills is increasingly important for all students, not just those who will go on to do postgraduate study or pursue a career in academia, as employers value graduates who can carry out market research, understand statistics, and critically evaluate sources of information.

What does SAGE Research Methods do?

- Supports students taking research methods, statistics, or evaluation courses or conducting research projects by providing instructional content covering every step of the research process
- Aids faculty research by providing crucial resources to help design, execute, and write up research for publication in leading journals
- Assists faculty teaching research methods in creating supplemental reading lists to share with students
- Helps librarians teach information literacy, research skills, literature review, and writing workshops

Content and features

- More than 1,000 of SAGE’s renowned books, reference works, and journal articles in research methods, statistics, and evaluation
- The Methods Map shows how methods terms and concepts are related
- Reading Lists can be used to compile lists of selected books, book chapters, journal articles, case studies, datasets, or videos for later review or to share with colleagues and students
- NEW! Project Planner guides users through each step of the research process with instructional content and links to material on the platform
- NEW! Which Stats Test helps users choose the best statistical method to use after answering a few multiple-choice questions about their data

Using SAGE Research Methods

Course: Graduate-level thesis or dissertation

A student conducting original research can find a step-by-step guide through the new project planner tool, plus introductory to advanced information on quantitative, qualitative, and mixed methods.

- Cases show researchers how similar projects have been approached
- Video tutorials provide easy introductions to specific methods
Master data analysis through hands-on practice

**SAGE Research Methods Datasets** is a collection of more than 150 teaching datasets and instructional guides that give students a chance to learn data analysis by practicing themselves. This bank of topical, engaging practice datasets, indexed by method and data type, is optimized for use in classroom exercises or in exam papers, saving faculty hours of sourcing and cleaning data themselves. The decisions researchers make when analyzing data can seem like a black box for students—through practicing analysis using real data from **SAGE Research Methods Datasets**, students can see how analytic decisions are made, helping them become confident researchers.

- Quantitative datasets are taken from surveys and experiments and come with instructions to analyze the data in SPSS
- Qualitative datasets are taken from academic research projects, providing bite-sized examples from interviews, focus groups, documentary sources, and more, plus advice on how to approach analysis

---

**cases**

Learn from stories of real research

**SAGE Research Methods Cases** are stories of how real research projects have been conducted. The collection provides more than 1,100 case studies, showing the challenges and successes of doing research, written by the researchers themselves. They explain why the researchers chose the methods they did, how they overcame problems in their research, and what they might have done differently with hindsight—the realities of research that are missing from journal articles and textbooks.

Each case:

- Is peer-reviewed
- Comes with learning objectives and discussion questions
- Can be used as a teaching tool to demonstrate a particular method
- Serves as inspiration to students who are preparing for their own research project

Bring research methods, statistics and evaluation to life

Every librarian has encountered frantic students struggling with a paper or research project. We know that students have a range of preferred learning styles, and when students are already overwhelmed by the number of books or journal articles they need to read to complete their paper, more text-based resources may not be the most effective educational tools. SAGE Research Methods Video can help your students learn research skills by watching and listening and can help your teaching faculty deliver memorable research methods and statistics lessons by providing interactive and engaging visual content.

Content and features

- Includes tutorials, case study videos, expert interviews, and more
- Covers every aspect of research skills training and guides students through every step of the research process
- Contains 484 videos, with 70% of content exclusive to SAGE
- Students can access content at any time, and instructors can embed videos in their course management systems
- Includes an entire 15-hour introductory statistics course, which students can access again and again, ensuring that they master the concepts

SAGE Research Methods is an excellent resource for researchers and faculty alike. No self-respecting library should be without it!

SAGE has been supporting business and management research for 50 years with our top-rated journals and books. Known for our quality content and cutting-edge, innovative resources—researchers and professionals alike trust us to provide the tools they need to thrive in today’s dynamic business environment. SAGE Business & Management is the definitive portfolio of resources for researchers at every stage of their careers.
The first step in successful business research

*SAGE Business Researcher* guides researchers through the key issues in business and management. With a unique marriage of journalistic excellence and academic rigor, these topic-based reports provide end-to-end overviews of current business issues. *SAGE Business Researcher* doesn’t just teach students what they need to know now—it teaches them how to think about business, setting them up for future success throughout their careers.

*SAGE Business Researcher*’s editors carefully follow global business trends and curriculum needs in order to commission the content your researchers need. Examples of the most read reports include:

- The Sharing Economy—Is it really different from traditional business?
- Women in Top Management—Is business open to female leaders?
- Commercial Drones—Can pilotless planes soar over safety, privacy, and regulatory barriers?
- The Business of Philanthropy—Can for-profit strategies work in the nonprofit world?

More thorough than newspaper or magazine articles and more timely than scholarly journals and reference works, *SAGE Business Researcher* helps students delve into the issues in which they have enduring interest.

The new *SAGE Business Researcher* will be a useful addition to any collection supporting undergraduate and graduate business, marketing, and entrepreneurial programs, as well as to business professionals and community college audiences.

Real world cases at your fingertips

*SAGE Business Cases* is the first digital collection tailored to library needs—providing librarians, faculty, and researchers with 1,700 authoritative case studies from around the world. Offered on SAGE’s digital library platform, SAGE Knowledge, these cases are integrated with SAGE’s book, video, and reference content, allowing for a rich scholarly environment and enhanced discovery.

*SAGE Business Cases* brings together cases carefully selected from a variety of sources, including key university and association partnerships, to create a curated collection of 2,500 cases by 2018. Special features include:

- Campus-wide access providing easy discovery without the need for per-case purchase
- A range of case types, styles, and levels to suit different academic needs
- Most cases will include teaching notes and discussion questions to ensure effective classroom use

Sample cases

- **Small Objects of Desire**—Apple is a leading electronics manufacturer and a lifestyle brand. It launches the iPhone, and people outside the London store location wait in a queue for more than a day to purchase it. How effective can good marketing be?
- **9/11—The Effects and Organizational Response**—The sectors of the economy most immediately affected after the attacks were travel and tourism. This case study examines the effects on and the organizational response of the organizations that were most affected.
- **Growing Managers: Moving from Team Member to Team Leader**—This case describes a newly promoted middle manager in a global, multicultural organization who is challenged by a number of factors in the workplace which are impacting her and her team’s ability to perform to the expectations of her regional manager.

Using SAGE Business Cases

**Course:** Social Entrepreneurship  
**Description:** A student’s midterm project is to create a venture proposal for a fictional green business startup. She consults with *SAGE Business Cases* to:

- Find details on how actual green businesses begin
- Gather ideas for building her own business plan
