General Music Today (GMT) offers refereed articles that describe successful practices, share teaching strategies and/or materials, suggest new ideas, or analyze issues of concern to general music teachers at levels from early childhood through high school. Each issue also features Multicultural Resources and Media Reviews.

Recent issues have included articles on topics such as Class Compositions; Developing Singing Accuracy; Early Childhood Music Education; Enhancing Language Skills through Music; Integrating Technology into the Music Classroom; Music and Children’s Literature; Music and Special Education; and World Music.

The editor currently is seeking manuscripts dealing with the general topics above, as well as three proposed special focus issues.

The Impact of Recent Brain Research on Music Education. The editor seeks manuscripts that explain the new insights from recent research in the neurosciences and psychological functions about how the brain processes and recognizes patterns of sound and the implications of this new research for music education. 
Manuscripts due July 1, 2009

The Power of Performance/Informance: The School Concert as a Tool for Teaching
Manuscripts due October 1, 2009

Reaching our Older Learners: Secondary General Music Strategies
Manuscripts due March 1, 2010

GMT is an interdisciplinary publication and welcomes submissions by related professionals. In the spirit of a global community, it encourages submissions from all regions of the world.
