ABOUT SLAS
SLAS is a global community of more than 18,000 scientists—from academia, government and industry—collectively focused on leveraging the power of technology to achieve scientific objectives. We consider a primary part of our mission to unite great minds in science and technology for the advancement of all research.

The membership of SLAS comprises academic, industrial and government scientists, engineers and informatics professionals, and science and technology focused product development, marketing and sale specialists—all of whom share a common interest in advancing their understanding and expertise in laboratory technology and science.
